PRICE FIVE CENTS

END OF RESISTANCE BY GERMANY IN RUHR IS CONCEDED

Berlin Government Ready to Negotiate on Reparations on Condition All Prisoners Held by France Are Released, Central News Dispatch Says

London, Sept. 20.—A Central News dispatch from Berlin says a lengthy semi-official announcement was made public in the German capital to-day stating that Germany is ready to negotiate on reparations, but conditionally on the discharge of all persons imprisoned by the French and the return of all those banished from the occupied areas.

The wording of the statement is very vague, says the correspondent, but it is generally interpreted as preparatory for the ending of the passive resistance.

Resisters Weaken

Berlin, Sept. 20.—Since the Government formally announced its inability further to finance the passive resistance in the Ruhr and Rhineland there has been a marked cooling of the ardor of the resisters and one of the immediate effects of the withdrawal of official credits to the industrialists, employers and labor organizations is reflected in the growing inclination by many workers to return to their former posts.

The altered mental attitude, apparent in the occupied area is not ascribed to wavering patriotic faith in Germany's cause, but is explained on the ground of widespread conviction that the social chaos which followed in the wake of the passive campaign has reached proportions which are making life unbearable.

WILL ADVERTISE ISLAND IN EUROPE

Bureau to Work Through C.N.R. Offices May Reach Prospective Settlers

Over 1,000 pieces of literature will be sent to European offices of the Canadian National Railways by the Victoria and Island Development Association, Frank Gloima, of the latter organization announced this morning to The Times. This literature will serve to advertise Vancouver Island and the capital city of British Columbia, and at the same time may be utilized amongst the people of Europe who expect to immigrate at some time. The bureau here has enlisted the aid of C.N.R. officials in their programme for the attraction to the West of Canada immigrants from Europe.

Inquiries from prospective settlers in other parts of the world are being received daily by the bureau here, amongst them communications from Milwaukee, Wisconsin; London, England; La Mesa, California; New York City; Tacoma, Washington; Davenport, Iowa; Condon, Oregon; Seattle, Montana; Chicago, Illinois; Calder, Idaho, and the Island of Bermuda. All these communications are from people who intend to come to Victoria. Amongst them are farmers, a lawyer from the Eastern States, a manufacturer of syrups and soda fountain supplies, a man wishing to hunt cougars for a living, a chicken rancher and an engineer.

The enquiries from settlers are steadily increasing, and the Publicity Bureau expects to have a flood of immigrants here before long. Already there are a large number of newcomers to the island taking land at different points adjacent to Victoria, and the little colony of settlers is growing.

FORD IN DOUBT ON PRESIDENTIAL RACE

No One Knows What He Will Do He Tells Reporter

Montreal, Sept. 20.—"I am not running for or against anything; no one knows what he will do from one day to another," said Henry Ford, when asked by The Herald reporter if he would run for the presidency of the United States. Mr. Ford is here on the way from Detroit to Seal Harbor, Maine, where his family has been spending some weeks. Mr. Ford declared that he was neither Republican nor Democrat, according to the reporter.

"They will have to show me the difference between an affiliate with either party," said Mr. Ford. "They are tarred with the same brush." In regard to prohibition in the United States and other places, he said the law ought to be observed. "They should put the army and navy into it," he said, presumably referring to the enforcement of the law.

UNIVERSITIES AID LEAGUE OF NATIONS

Geneva, Sept. 20.—Another outlet for the expression of world opinion in support of the League of Nations has been opened here in the inauguration of a movement by University groups of many nations for the establishment of an International University Federation.

LORD BIRKENHEAD HERE ON SATURDAY

Former British Lord Chancellor Has Had Remarkable Career

Has Crowded Law, Politics, Authorship and Sport Into Half Century

The Canadian Club of Victoria, jointly with the Rotary Club, will be the hosts of the Earl of Birkenhead, late Lord Chancellor of Great Britain, at an evening function, commencing at 6.30 o'clock on Saturday.

His Lordship, who unites the diverse qualities of a leading parliamentarian in both British Houses, of a well known judge and writer on international law, as well as a remarkable record as an athlete, is sure of a warm welcome here.

In the United States during this tour he has been a frank talker on American affairs, while in Canada he has declined to accept of "the snip" interview as he terms it, on public affairs.

At the supper gathering on Saturday members of the Victoria Women's Canadian Club will be admitted to hear the speaker, on presentation of their membership tickets, and the payment of a small admission fee.

Early Years
The Earl of Birkenhead has been for the past twenty years so prominent as a parliamentarian in Great Britain, and in the United States and Canada as a propagandist in war time, that his record is widely known.

The late occupant of the Woolsack in the British House of Lords, and thereby Speaker of the Upper Chamber, was born July 12, 1872, a son of the late Frederick Smith, of the Middle Temple, and like his father he embraced the law as a preliminary to politics. He was born in the town opposite Liverpool, from which he takes his title, and was educated there before proceeding to Wadham College, Oxford, where he was one of the most brilliant scholars of his generation. Mr. Smith won honors there, including that of Viceroy Law School, the last named years to lecture work in connection with Merion and Oriel colleges, as well as the University Extension Lecture series, the last named often being taken en route to a political future.

Becomes Barrister
This carried the career of Lord Birkenhead, then Mr. Smith, to 1898 when he took silk and proceeded to practice in the northern circuit, with headquarters in Liverpool. A man of his brilliance who has already been a lecturer on international law, which has since gone through several editions, it was not surprising that he soon gathered a lucrative practice, and turned to politics. It was the time of the Chamberlain controversy on tariff reform, and he was an active supporter of the tariff union, his first speech delivered after his election to the British House of Commons in January, 1906, for the Walton division of Liverpool, being a vigorous defence of the tariff policy.

(Continued on page 2.)

**PIONEER REPUBLICAN
ENDS LIFE WITH GUN**

Staunch Supporter of Old Guard Commits Suicide in Seattle

Seattle, Sept. 20.—George H. Stevenson, long prominent in Republican Party circles in Washington and a candidate for the Republican nomination for United States Senator at the last primary election, committed suicide in a down town office building here to-day. He was sixty-five years old.

Mr. Stevenson, known as a staunch supporter of the "old guard" wing of the Republican Party in this state, was a pioneer resident of Seattle. He leaves a widow and one daughter.

A. Hall, secretary to the Danish Consul, found Mr. Stevenson's body in a washroom, a pistol clutched in one hand. He had been shot through the head. Police said the case was plainly one of suicide.

**MONTREALER NAMED
NEW COMMISSIONER
FOR SAAR VALLEY**

Geneva, Sept. 20 (Canadian Press Cable via Reuters).—Major G. W. Stephens, Montreal, was elected to-day by the Council of the League of Nations to succeed R. D. Vaughan, Winnipeg, on the commission governing the Saar Valley. The vote was 29-9 in favor of Major Stephens.

Montreal, Sept. 20.—Major George W. Stephens, whose appointment to succeed R. D. Vaughan, Winnipeg, on the Saar Valley Commission, has been announced, is a Montrealer with wide experience in administrative work. He is fifty-seven years of age and was for a time a member of the local legislature.

Church Union Controversy is Waxing Warm

Vancouver, Sept. 20.—Rev. Dr. R. G. Macbeth, pastor of St. Paul's Presbyterian Church here, and one of the leading opponents of Church Union, to-day declared that the statement recently issued in Toronto by Rev. Dr. Gander and Rev. Dr. Pidgeon in the interest of organic union of certain churches, is fundamentally wrong, because it confuses the Assembly and the Church. The Assembly is not the Church and Church courts have no constitutional right to put an end to the Church whose affairs they are elected to administer, he stated.

"The rest of the statement," Dr. Macbeth declares, "is principally unwarranted prophecy and impertinent efforts at intimidation. They ask congregations opposed to the union scheme not to vote till after the bill to consummate union passes Parliament. This is in effect saying that the people must not think until it is too late."

FREE STATE WILL PUT DE VALERA ON TRIAL VERY SOON

London, Sept. 20.—Eamonn de Valera and some of the other leading Irish Republicans will be brought to trial at an early date, according to a report in Dublin quoted by The Daily Mirror. The newspaper adds that de Valera is being continually removed from one military prison to another in order to avoid the possibility of an attempt at rescue.

JAPAN DECLINED RUSSIAN RELIEF

Moscow Report Says Soviet Vessel Turned Away

Moscow, Sept. 20.—A Vladivostok dispatch to Ivestia, official organ of the Soviet Government, says the steamship Lenine, the first Russian relief vessel sent to the aid of the Japanese earthquake sufferers, was expelled from Yokohama harbor by the Japanese authorities, who also declined to permit any of the Soviet relief workers to land. The Lenine, a general passenger agent of the C.P.R. in Vancouver, this party of visitors is looking into matters in connection with the land settlement problem, and is considering the desirability of establishing a colony of its countrymen on the island.

The Japanese consul at Vladivostok has been informed that the Tokio Government, while accepting Russian aid funds, is unable to permit the Russian aid commission to enter Japan.

The Workers' Gazette, in explaining the exclusion of the Lenine, says the Tokio Government was told from some source that the vessel carried fifteen tons of communist literature.

The Soviet Government has appropriated 500,000 gold roubles to the aid fund.

TOBACCO FARMERS LOSE BY FROSTS

Windsor, Ont., Sept. 20.—Essex County tobacco farmers face a loss of \$1,000,000 from last week's frosts, according to a county agricultural representative. Most of the loss falls on the burley growers, he said.

WILL SHORTLY BE BROUGHT TO TRIAL; EAMONN DE VALERA

FREE STATE WILL PUT DE VALERA ON TRIAL VERY SOON

London, Sept. 20.—Eamonn de Valera and some of the other leading Irish Republicans will be brought to trial at an early date, according to a report in Dublin quoted by The Daily Mirror. The newspaper adds that de Valera is being continually removed from one military prison to another in order to avoid the possibility of an attempt at rescue.

SWISS EDITORS TO ARRIVE SUNDAY

The party of Swiss newspaper editors, on a tour of the Dominion of Canada, will arrive in this city Sunday afternoon, according to word received here this morning by the Victoria and Island Publicity Bureau, from W. N. Small, general passenger agent of the C.P.R. in Vancouver. This party of visitors is looking into matters in connection with the land settlement problem, and is considering the desirability of establishing a colony of its countrymen on the island.

EARTH SHOCKS FELT IN ENGLAND

Tremor Felt at Cromer and Other East Coast Towns

London, Sept. 20.—A slight earth shock yesterday noon at Cromer, Norfolk, says The Daily Mail, was registered. The vibration was accompanied by a loud rumbling, while windows rattled and ornaments within houses were displaced.

The tremor was felt in many of the parishes on the east coast, but apparently it was not noticed far inland. The time of the shock was 11.52 a.m. One suggested cause of the tremor was an explosion at sea, but nothing of this nature has so far been reported.

An earth shock of moderate intensity was recorded on the seismograph at Goodridge Heights observatory this morning at 1.15 o'clock. The origin of the quake was probably in the vicinity of California.

Co-Partnership Schemes Are Criticized

London, Sept. 20 (Canadian Press Cable).—Co-partnership schemes which were strongly criticized recently by the Trades Union Congress as impairing trade union solidarity have lamentably failed to fulfill the promoters' hopes of a few years ago, it was admitted, but where others have failed Viscount Leverhulme claims to have brilliantly succeeded. In the course of a speech last night he stated that 16,000 employees of Lever Brothers' works at Port Sunlight held £2,500,000 preferential partnership certificates, an average of 125 apiece.

Dividends were paid to hundreds of employees, of over thirty shillings a week, not to mention free life insurance policies totaling £1,000,000.

DIED FROM BURNS

Saskatoon, Sept. 20.—Robert Bean, a colored child, aged two, died yesterday in Battleford Hospital as a result of burns suffered when he climbed into a gas range box and in some manner set fire to the fabric. Passers by heard screams coming from the box and found the child wrapped in flames.

HART GOES TO OTTAWA TO ASK BIG TAX REFORM

To Urge Consolidation of Dominion and Provincial Tax Collection

Plan Would Cut Down Overhead Cost of Collecting Levy on Income

Hon. John Hart, British Columbia Minister of Finance, will arrive in Ottawa to-morrow or Saturday to discuss with Hon. W. S. Fielding, Federal Minister of Finance, sweeping reforms in Canada's taxation system, it was announced at the Parliament Buildings to-day.

Mr. Hart will urge Mr. Fielding to co-ordinate and consolidate federal and provincial tax collecting agencies, which at present are duplicating the work of collecting income taxes. Mr. Hart will urge that one set of machinery be established to collect the Dominion Government and Provincial Government levies on income. The revenue collected by this single agency, under Mr. Hart's plan, would be divided between the Dominion and the Province on a basis to be determined.

"The idea is if possible to reach a general basis of agreement on a plan which would combine the provincial and federal tax collecting agencies and so cut down overhead costs," Premier Oliver stated to-day in discussing Mr. Hart's visit to Ottawa. "The British Columbia Government," the Premier recalled, "has urged these reforms before but so far has got no results. We hope that Mr. Hart's conference with Mr. Fielding between sessions of Parliament when Mr. Fielding is not too rushed with work will get the action we desire."

Mr. Hart will return to his office here at the end of this month after a visit to England. He will be accompanied by Hon. E. D. Barrow, Minister of Agriculture.

ENGLISH FARMERS FACE BIG LOSSES

National Farmers Union to Wait Upon Premier Baldwin

London, Sept. 20 (Canadian Press Cable).—The council of the National Farmers' Union has appointed a deputation to wait on Premier Baldwin in regard to the "plight" confronting agriculture. The president of the Union addressing the Council to-day, declared that agriculture in Great Britain had reached the most critical stage in its history. Operations in recent years showed heavy losses and farmers faced the prospect of a heavy loss in the coming years. The prominence of an Imperial Economic Conference created an immediate national decision imperative. Falling an immediate definite statement of the Government's policy, the union would advise its members wherever possible to resort to pasture or ranch farming.

In regard to the efforts to lessen the stringency of the regulations affecting the admission of store cattle from Canada, the council agreed to the recommendation of the live stock committee that an opportunity should be given for the instructions issued by the Minister of Agriculture to their inspectors at ports of entry to take full effect.

These instructions were that no cattle in condition for immediate slaughter should be admitted for store purposes.

HUTTERITES BUY FARM PROPERTY

Lethbridge, Sept. 20.—The Miami Farm of six thousand acres, located in the New Dayton district, has been sold by its Ohio owners to the Hutterites for a consideration said to be a quarter of a million dollars. The manager of this farm announced after the sale was concluded that in the fifteen years of its operations the farm had paid 450 per cent, or an average of thirty per cent, on the investment and that the original investment will now be returned as a result of the sale.

SALMON WITH TWO MOUTHS IS CAUGHT

A coho salmon is here with two mouths. A large throng gathered to-day around the window of W. J. Wriestworth, who is the lucky possessor of the freak catch of the season. It has a mouth in the usual place, and one directly underneath. The fish was caught off Bentinck Island, near Race Rocks, and only weigh about six pounds.

The upper entrance has no tongue, the tongue being attached to the lower one. Both mouths join one throat. It will probably be preserved as a curio.

COMMUNISTS CLASH WITH MILITARY IN CENTRAL BULGARIA

Troops Called Out to Disperse Communists Who Attacked Police Stations and Barracks to Liberate Arrested Comrades

Sofia, Sept. 20.—Sanguinary fighting is reported from eastern Rumelia, in Central Bulgaria, where Communists attacked the police stations and barracks at Stara Zagora, Nova Zagora, Tefirhan and two villages, with the object of liberating a number of their comrades arrested ten days ago. Troops were called out to disperse the Communists.

Six Communists were killed and six wounded at Stara Zagora and one soldier and a civilian spectator were injured.

MASSEY VISITS COOLIDGE AT WASHINGTON

Washington, Sept. 20.—Premier Massey, of New Zealand, who is en route for London to attend the session of the British Imperial Conference was received to-day by President Coolidge at the White House.

CHARGE GOVERNOR EXCEEDING POWERS

Lower House in Oklahoma to Consider Series of Charges

Oklahoma City, Okla., Sept. 20.—Events in Oklahoma moved to-day toward a showdown between Governor J. C. Walton and members of the State Legislature over the executive's exercise of authority and his war on the Ku Klux Klan and mob hangers.

A call for an extraordinary session of the lower house, to consider a series of charges that Governor Walton has taken unto himself the power of a despot and has supplanted constitutional government with a dictatorship, was issued early this morning.

The call was made public by W. D. McBees, representative from Stephens County, bore the name of forty-five house members, with the promise that during the day the list would grow to fifty-four, constituting a majority of the house. Noon of next Wednesday is the hour fixed for the assembling of the lawmakers. Representative McBees declared that he anticipated no attempt by the Governor to carry out his threat to jail the legislators in the event that they convened.

At almost the same time the legislative call was promulgated, Governor Walton, appealed to the people of the States in a proclamation to repudiate the attempt of the lawmakers to assemble, charging that those sponsoring the movement are "Klan members" of the legislature, inspired by the invisible Empire and aided by the Klan press.

Oklahoma City, Okla., Sept. 20.—A signed statement declaring that Governor J. C. Walton has made the Ku Klux Klan the peg on which a political bankrupt has hung the tattered hallmarks of grotesque failure, while making his last frantic bid for public favor, was issued to the Associated Press here to-day by N. C. Jewett, Grand Dragon of the Klan in Oklahoma.

Mr. Jewett declared that "despite the insidious insult to Klansmen in the offer of 'protection' if they would withdraw from the order, we have been enjoying a record-breaking growth in membership in 'The past few days'."

Prince Quizzed by Immigration Men

Toronto, Sept. 20.—Traveling as a private citizen has its disadvantages as well as its advantages for the heir to the Throne of Britain. On his visit to Canada, four years ago the Prince of Wales escaped the curious attention of immigration officials. As Lord Renfrew he had to run the gauntlet of the whole series of personal questions demanded of persons about to enter Canada.

But Lord Renfrew did not shrink from the ordeal. An immigration official who reached Toronto yesterday from Quebec said His Lordship answered the whole list from the color of his eyes to the state of health of his ancestors, in all seriousness. Some of the questions and answers were: Present occupation—Nothing. Future occupation—Nothing. Purpose of coming to Canada—To enjoy myself. Amount of cash—Enough for my present needs. Can you read—Yes. What language—Some five of them.

NO ACTION TAKEN ON ITALY'S BREAK

League of Nations Discusses Interpretation of Covenant

Geneva, Sept. 20.—The Council of the League of Nations failed to take definite action to-day on the question of Italy's repudiation of the League's competency to intervene in the Italo-Greek situation. The Council decided, however, to proceed to a discussion of the interpretation of the League's Covenant with the assistance of experienced jurists.

VICE-PRESIDENT OF NOVA SCOTIA STEEL RESIGNS

Montreal, Sept. 20.—Following the expiration of a long term contract originally entered into as president of the Nova Scotia Steel and Coal Company, D. H. McDougall resigned as vice-president of the British Empire Steel Corporation at the monthly meeting of the board of directors of the corporation here yesterday. A statement issued at the conclusion of the meeting announced that the corporation retains the benefit of his long experience in a consulting capacity.

Mr. McDougall refused to comment on his resignation further than to say that he was party to the announcement issued by the British Empire Steel Corporation.

Roy M. Wolvin, president of the corporation, refused to say anything about the resignation of Mr. McDougall.

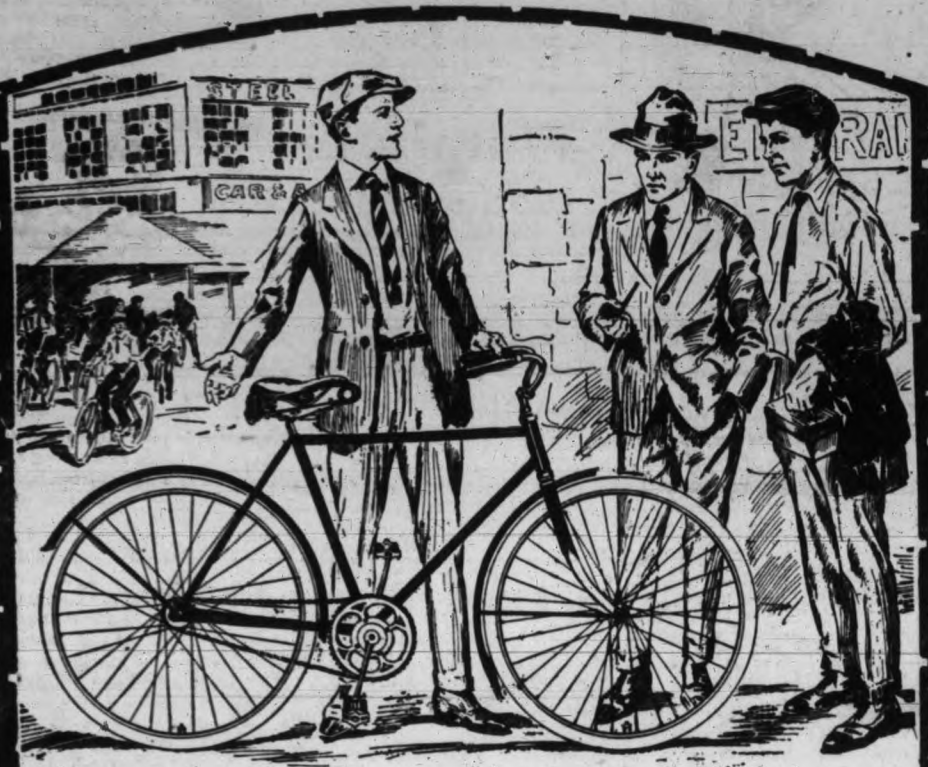

FOUND DEAD IN BOAT

Seattle, Sept. 20.—Two men were found dead in a boat at Lakelse Beach, near here, to-day, according to a report made by telephone to Sheriff Matt Starwich.

Sheriff Starwich said his deputies searched the same boat yesterday with a liquor search warrant but found no liquor, nor was anyone on board. The telephoned message did not indicate the cause of death.

PLIMLEY & RITCHIE, LTD.

611 VIEW STREET
SOLE AGENTS
For C.C.M. Massey Bicycles. Easy Terms, \$5.00 Per Month

C.C.M. Riders are proud of their Mounts

THERE is one thing very noticeable among riders of C. C. M. Bicycles. They are proud of their mounts.

A C.C.M. owner looks upon his Bicycle with a feeling akin to affection.

It is not just the sparkling beauty of the glossy enameling, nor the brightness of the nickeling, nor the trim, racy lines that causes this friendly feeling.

It Is Something Deeper

It is the genuine quality of the bicycle—the quality that is more than surface deep—the quality that rings true day in and day out, year after year—the quality that gives you thousands of extra miles of quiet, smooth, easy riding.

When you buy a C. C. M. Bicycle you become the possessor of as perfect a piece of bicycle mechanism as is produced anywhere in the world—a bicycle built of the finest materials with all the skill and precision gained during a quarter-century of high-class manufacturing experience.

The Hidden Quality

You cannot judge with your naked eye the quality of these materials,

nor the accuracy of the workmanship, any more than you can see the high-class copper under the bright nickeling; or the coat of anti-rust that is first put on the C. C. M. frames before they are given their coats of lustrous enameling. Or the heat-treated special Automobile steel of the bearings, so hard on the outside a file won't cut them, yet with a core so tough the bearings are practically unbreakable.

But it is this unseen quality that gives the extra years of easy riding—the extra mileage—the extra satisfaction—and causes that feeling of pride and affection C. C. M. owners have for their mounts—a feeling which less fortunate owners of ordinary bicycles never experience.

The New Models

Ask the C. C. M. dealer to show you the new 1923 models. They are made of English Seamless Tubing, and equipped with the C. C. M. Triplex Hanger, the new Gibson Aluminum-frame Pedal, and the Hercules Coaster Brake, without extra charge. And selling today at \$15 to \$20 less than "peak" prices. Right down to rock bottom for a quality bicycle.

DEPOSITORS CLAMOR FOR EARLY PAYMENT

Organization Formed in Vancouver and Montreal

Vancouver, Sept. 20.—Demand that assurance be given by the Government of early payments of deposits in the Home Bank, which recently failed, was sent to Right Hon. W. S. Fielding by Vancouver depositors, who organized to the number of seventy at a special meeting here.

The message to the Minister of Finance follows: "Vancouver depositors of the Home Bank strongly deprecate your lack of interest and would ask that some statement of the affairs of the Home Bank be issued by you immediately which will have the effect of assuring the depositors of prompt payment in full."

Vancouver depositors were organized for action, a committee of five was appointed to act for them, and R. G. McLaughlin, K.C., of Toronto, was appointed to represent them at the meeting of depositors to be held in Toronto. It was revealed that the Canadian National Railway Medical Association fund of \$15,000 was lodged in the Home Bank.

Meet in Toronto

Montreal, Sept. 20.—Depositors in the Montreal branches of the Home Bank of Canada met here in reply to a request made by L. A. Weldon, advocate, of Lindsay, Ont., who has been named general secretary of the depositors of the bank in Canada. Mr. Weldon said a meeting of representatives of different localities would probably be held in Toronto this week. The meeting heartily approved of statements that it was for the other banks to come to the aid of the depositors.

A resolution was passed that the depositors present constitute themselves into a "Province of Quebec Home Bank depositors' committee" and that this organization continue in existence until such time as the depositors get one hundred cents on the dollar.

Want Investigation

Another resolution asked any winding-up order until the curator has made his report and until such time thereafter as the depositors have had time to consider the report, and that the Government of Canada should at once appoint a royal commission to investigate the causes of the failure of the bank and also investigate in the most complete manner the present condition of all Canadian banks so that the depositors may be in a position to judge as between banks.

Another resolution protested against a preference being given to depositors of the Federal and provincial governments. The Bank Act gives the governments this privilege.

Anti-Unionists Active in Toronto Church Circles

Toronto, Sept. 20.—Anti-unionists in this city Tuesday representing all parts of the country were in close session with their legal committee in connection with the continuance of the Presbyterian Church in Canada.

"We find no enthusiasm for union anywhere," said Principal Fraser, "and more and more there is a growing conviction that the General Assembly did not represent the people. The minority is under no obligation to follow the dictates of the Assembly. Judge McKay, of Port Arthur, said he would give one hundred dollars to missions if anyone would show him a precedent in religious history, pagan or Christian, where the minority had been dealt with so violently as in the present situation."

There is a proposal on foot to create a fund to assist ministers who would be forced from their pulpits because of their anti-union views.

REVENUE FROM PARKS

Ottawa, Sept. 20.—Canada's national parks will return a revenue to the Dominion in excess of \$20,000,000 in 1923, according to estimates compiled by the Dominion Parks Commissioner.

The volume of tourist traffic to the parks has been unusually heavy this year. The number of visitors is expected to total nearly 200,000 before the end of the season.

Quite often we get a letter from some woman who asks if we supply recipes for things in which Pacific Milk is not used.

Yes, we do, gladly. This department is for cooks and cooking, and it does not matter what one wants to make, we want to be of service.

So write asking for recipes, or if you have one or two you think would be beneficial to others send them for file or for publication. Please state if we may use your name.

FRANCO-CANADIAN TRADE TREATY IS NOW IN EFFECT

Ottawa, Sept. 20.—The Franco-Canadian trade Treaty having been ratified by the two countries, is now in force, according to the Customs Department.

Previous conventions, dated 1907 and 1921, regulating commercial relations between France and Canada, automatically ceased to be effective. The new Treaty is to continue in force indefinitely, subject to termination on six months' notice by either country concerned.

Under the present Treaty, Canada accords France her intermediate tariff generally, with special rates on four groups of commodities. Canada in return receives special rates on four groups of items and the French tariff of 1910 on other articles so long as that tariff is applicable to imports from the United States. Two articles in the agreement are designed to secure to Canada equality of treatment with the United States in the French markets.

In general the agreement provides for the "most favored nations" treatment reciprocally between Canada and France. This, however, does not entitle Canada to concessions made by France to her protectorates or to border states. Another exception is such benefits as France may grant with regard to imports designed to facilitate financial settlement with countries with which France was at war.

In the case of goods now on the free list being made dutiable by either country, the lowest rate of duty in force shall apply.

It is provided that imports from France or her colonies must arrive at Canadian sea or river port without transshipment from a port of such countries or from a port of a country enjoying the benefit of preferential or intermediate tariff. Similar regulations govern exports from Canada to French territory.

The French minimum tariff is secured to Canada on a number of food products, as well as lumber, paper, coal, copper and nickel.

RESEARCH REDUCES NUMBER OF MINE DISASTERS IN U.S.

Washington, Sept. 20 (Associated Press).—Although the recent mine disaster at Kemmerer, Wyoming, took a heavy toll of lives, there has been a great reduction in such accidents since organization of the Bureau of Mines. The Kemmerer disaster was the second of any magnitude this year, while in former years, before the adoption of safety methods devised by bureau experts, oil-taking explosions were not uncommon. In the month of December, 1907, 800 men were killed in two disasters alone.

While the bureau was not organized until 1910, it now trains annually 12,000 coal miners in safe methods in mining, rescue and first aid work; operates ten mine rescue stations and ten safety stations, and includes in its mobile rescue units a number of fully equipped railroad rescue cars and a fleet of similar automobile trucks.

Most mine disasters result from explosions caused by the high explosives used in the mining process. Atty. of coal mines used last year more than 220,450,000 pounds of assorted explosives, however, the number of men killed per 1,000 dropped from 624 in 1907 to 4.13 in 1921.

The most important of the discoveries of the Bureau's engineers was that finely divided coal dust is highly explosive without the presence of an explosive gas, and that a spark, open light, or flame from a "shot" in a vein can set it off. Prevention of such explosions can be affected through sprinkling dry mines, or by adding to the ever-present coal dust a sufficient quantity of a non-explosive stone dust. On some mines a stone dust cloud is let loose before every "shot."

Aside from developing gas masks and other important rescue equipment, the bureau also produced new types of explosives whose flame is not liable to set off either gas or coal dust. These explosives are known as "permissibles" and were first devised by bureau researchers, although the bureau now only tests commercially made explosives and gives instructions as to their best use.

Improvements in mine ventilation worked out by the bureau have contributed also to the decrease in the number of disasters from gas explosions.

RUSSIAN REFUGEES WILL BE ADMITTED BY UNITED STATES

Washington, Sept. 20.—Two hundred Russian refugee immigrants detained at the immigration station at Seattle and Vancouver as being in excess of the September quota, will not be turned back, but will be admitted because of conditions in Japan following the earthquake and fire. They will be charged to the October quota.

DIED SUDDENLY

Cereal, Alta., Sept. 20.—Dr. E. C. Chandler, forty-three, head of the Cereal Cottage Hospital, died here last night in a sudden heart seizure. His wife and five children survive.

CONFERENCE TO ACT ON LIQUOR PROBLEM

British Government Disapproves of Proposals by Hughes

Washington, Sept. 20.—The British reply to Secretary Hughes's proposals for a reciprocal agreement on ship liquor and liquor smuggling was received at the State Department yesterday and was described by officials as "in general, not sympathetic to the proposals." The British Government plans, however, to present the question to the British Imperial Conference, which meets in London next month.

State Department officials view the British communication as leaving open the possibility of negotiating a double-barrelled treaty to curb rum running and also to facilitate legitimate liquor shipments in foreign bottoms. There was no attempt, however, to disguise the fact that the British Government had indicated general disapproval of the plan and raised objections against it.

Proposals made to several powers, including France and Great Britain, Secretary Hughes pointed out that the draft treaty he submitted was designed to make a special arrangement extending the right of search and seizure up to twelve miles offshore for the particular purpose of preventing wholesale smuggling of liquor into the United States. It was emphasized that no project was being put forward by the United States for any change in the general rule of international policy that fix the limit of territorial waters at three miles offshore.

Secretary Hughes also pointed out that under existing law in this country the Government was powerless to permit stores of liquor on foreign ships to enter American waters, even when it was clear that the liquor was not to be used or served within American jurisdiction. By an exercise of the treaty-making power, Mr. Hughes proposed to overcome this obstacle in a way that would have the effect of an amendment of the law.

Door Left Open

The State Department does not plan to make public the British communication nor would officials disclose the specific grounds upon which British objections were based. Apparently there is some hope in Washington that reference of the question to the Imperial Conference leaves a door open to ultimate negotiation of a treaty along the lines of that proposed by Secretary Hughes. In any event the State Department regards the matter as still in an indefinite state.

RUSH OF ORDERS FOR ALBERTA COAL

Ontario Government Swamp- ed With Calls From Dealers

Toronto, Sept. 20.—The Telegram says that orders for 7,000 tons of Alberta coal have been received by the Provincial Government from dealers all over Ontario, following announcement that the Canadian National Railway will give a \$7 per ton freight rate if 10,000 tons are dispatched from the mines consigned to Ontario before October 31.

The orders are pouring in by telephone and mail and even by telephone from dealers in practically every part of the province.

THE PERSONAL TOUCH

Easily one of the most important resolutions adopted by the Conference of the Association of Canadian Clubs is that which assures this important national organization's assistance in giving the personal touch to the welcoming of our new population as it arrives in the country.

It is true that many an ambitious young man who had dreamed hopeful dreams about the promised land of Canada has given up the ghost when he has found that the reality was devoid of the warm hand shake or the word of encouragement. This is not to say that the Association of Canadian Clubs or any other organization interested in the welfare of this great Dominion should coddle the newcomer; all that is needed is to make him or her feel at home.

It will be expected that the man who has had vision enough to see bright prospects in his chosen sphere will possess sufficient backbone and ingenuity to tide him over the period of strangeness which naturally settles down upon anybody fresh from his native land and a life to which he has become accustomed. But there is nothing like a little of that practical sympathy that can be dispensed without much trouble.

A kindly inquiry as to how the new settler is getting on, if there is any little advice that could be given to him, if he would like to meet his neighbors and become accustomed to all the varied aspects of Canadian life under congenial and wholesome auspices—this is the personal touch which means so much to the new arrival.

By co-operating with the rural institutes throughout the country, and by enlisting the aid of any organization that is in a position to render such service, the Association of Canadian Clubs can do an exceedingly useful work for Canada in this particular connection.

NO REPUBLICAN WILL SIT

Since none of the republican members of the new Dail intend to take the oath of allegiance and take their seats the Cosgrave Ministry will be able to pursue the policies which it had already inaugurated prior to the dissolution of the provisional Parliament.

Apparently Eamonn de Valera considers that his somewhat unexpected success at the polls and his forty-three elected members will constitute a fairly substantial background for a new campaign if the Free State authorities should agree to restore his freedom at a later date. But he may as well make up his mind that such support as he has just obtained by a constitutional appeal to the people will not survive the success of the present Government's administration. For it can be taken for granted that even the obstinate republican is not going to quarrel with his bread and butter if there is any danger of the latter becoming depleted. And even he knows that neither the authorities at Dublin nor the people at Downing Street has any idea of turning the country over to de Valera merely because he still sticks to his republican notion.

Meanwhile Mr. Cosgrave and his associates have a respectable working majority over all the other elements that make up the Dail—without the republicans. Many of them will be found on the Government's side in the settlement of questions that affect the welfare of the country as a whole.

SEEING IS BELIEVING

Experience has shown that the average member of the British Parliament who has been to Canada during the last year or so has returned to the other side of the Atlantic with a real and useful working knowledge of conditions in the Dominion. And if the Association of Canadian Clubs can do anything to induce the Government at Westminster to send out its own missionaries from time to time—to give them an opportunity for first hand investigation and to explain to the people of this Dominion the policies of the prevailing Administration of the day—the result would be shown in a more vigorous development of this country's empty spaces by opening up new fields to which the surplus population of the Old Country could be sent with assurance of immediate employment and subsequent prosperity. The advantages that would flow from the more intimate political understanding which would be established by a policy of this kind need no specific relation. It is enough to say that an already unbreakable bond between Canada and Britain would be greatly strengthened by a more intelligent understanding of one another's affairs.

CONFUSION IN NAMES

There is much to commend the suggestion which a former member of the Victoria Kuntz Club makes in a letter published in yesterday's issue of The Times. She has met a large number of people in San Francisco who are under the impression that this city is a pretty residential section of Vancouver. They have conceived the idea that because this part of the Province is named Vancouver Island Vancouver must be

a part of it. And there is nothing particularly surprising in a mistake of that kind. The Victorian in question, however, suggests that advertising publicity from this city should specifically refer to Victoria as British Columbia's beautiful capital. This again intrudes the old controversy that once centred around a proposal to change the name of the Island. But the idea from San Francisco might well be considered by the officials of the Publicity Bureau.

IT WAS GOOD BUSINESS

Our Chamber of Commerce did an excellent stroke of business when it entertained the visiting ticket agents from the other side of the line. Seeing is believing and the Tourist Group of the local organization was able to show the members of the American body ample justification for letting tourists know that there is a great deal more to be seen and done in Victoria than the time between boats could ever hope to afford.

It is gratifying to know that Monday's visitors were particularly pleased with everything they saw and left the promise with the local Chamber that travelers to the Pacific Northwest will hear a good deal more about this locality than they have been in the habit of hearing before. With such friendly co-operation assured it goes without saying that there will be bigger business for all concerned. For those who come and tarry awhile will go away and do a little advertising on their own. That will mean heavier travel and more benefit to the transportation companies as well as to our own locality.

Note and Comment

Judging by the behaviour of Mother Earth these days one might suppose that it is practising its new "jazz" steps for the coming dancing season.

Premier Baldwin and Premier Poincaré had a heart to heart talk yesterday and some bright wit had the courage to speculate that the subject would have something to do with reparations.

It was a foregone conclusion that the Association of Canadian Clubs would give all its support to the League of Nations. After its delegates had heard Sir George Foster assurance was made doubly sure.

At its regular meeting on Tuesday night the Vancouver Trades and Labor Council heard delegate after delegate report that practically all the members of their various unions were in employment and in some instances wages and union membership had increased. We wonder if this body supported the suggestion that Mr. Frank Hodges should be given "friendly advice" that was intended to warn prospective settlers against leaving the Old Country for Canada.

Colonel Webb, who accompanied the members of the London Scottish Regiment to Toronto, has just reached London. This is part of what he said on his arrival home: "I saw no evidence of unemployment or hard times in Canada. In Toronto, certainly, there was plenty of work for any man who would give a decent day's return for a decent day's pay. If I were a younger man and had something to start with, I would not hesitate to take up life in that go-ahead country." The Colonel has the right idea.

Some Thoughts for To-day

There is such a choice of difficulties, that I Own myself at a loss how to determine.
James Wolfe.

I give thee thanks in part of thy deserts,
And will with deeds requite thy gentleness.
Titus Andronicus.

A thousand years a poor man watched
Before the gate of Paradise;
But while one little nap he snatched,
It oped and shut. Ah! was he wise?
Wm. R. Alger.

Take life too seriously, and what is it worth? If the morning wake us to no new joys, if the evening bring us not the hope of new pleasures, is it worth while to dress and undress? Does the sun shine on me to-day that I may reflect on yesterday? That I may endeavor to foresee and control what can neither be foreseen nor controlled—The destiny of to-morrow.
Goethe.

With grave
Aspect he rose, and in his rising seem'd
A pillar of state; deep on his front engraven
Deliberation sat, and public care;
And princely counsel in his face yet shone
Majestic, though in ruin; sage he stood,
With Atlantean shoulders, fit to bear
The weight of mightiest monarchies; his look
Drew audience and attention still as night
Or Summer's noontide air.
Milton.

Our Contemporaries

PLAUSIBLE REASON
Toronto Globe—Canadian foxes have been barred from England. Masters of hunt clubs probably fear their hounds would not take kindly to the scent of the dallas which distinguishes our silver foxes.

THE CANADIAN NATIONAL RAILWAYS
Ottawa Journal—"Sir Henry Thornton's prediction, made in an interview with The Montreal Press, that within three years the Canadian National will be free of deficits, seems reasonably well grounded. . . . But whether it takes three years, or five, or more, it is now perfectly clear that the success of the system is assured. Down in St. James Street, Montreal, pudgy-handed gentlemen may sit behind mahogany doors and indulge in "whispers of death," but the plain people of the country, the people who are the backbone of any nation, see a great experiment triumph over gigantic difficulties, and are unafraid. More than that, they are shrewd enough to comprehend what is really behind the funk of the whisperers and the defeatists."

Y.M.C.A. CLASSES OPENING TO-DAY

Building Has Been Partly
Renovated For Extensive
Winter Programme

To present a more attractive programme for the year, the Y.M.C.A. has been arranging a new schedule of gymnasium classes and has renovated its entire headquarters. There have been changes in the swimming tank, the locker and recreation rooms and the boys' department. The first classes of the season are holding session in the gymnasium to-day.

There have been several changes in the schedule of last year's gymnasium classes for the boys, and the following will be the plan for the ensuing year: Preparatory boys' class, Saturdays 9.30 to 10.30 a.m.; junior school, Mondays and Thursdays, 4.15 to 5.15 p.m.; intermediate school, Tuesdays and Fridays, 4.15 to 5.15 p.m.; junior employed—boys, Mondays and Thursdays, 7.15 to 8.15 p.m.; intermediate employed boys, Mondays and Thursdays, 8.15 to 9.15 p.m.; school leaders' corps, Wednesday, 4.30 to 5.30 p.m., and employed leaders' corps, Friday, 7.15 to 8.15 p.m. The swimming periods follow the gymnasium work. Swimming instruction takes place Saturday morning.

The gymnasium classes for men, starting next Monday, are well filled with members from the ranks of last year's men, and the new arrivals. Morning, afternoon and evening classes are held during the week. The programme, which consists of a series of activities to be repeated every week, is a big one.

There will be classes in boxing, swimming, tumbling, badminton, handball and other games.

The WEATHER

Daily Bulletin Furnished
by the Victoria Meteorological Department.

Victoria, Sept. 20.—5 a.m.—The barometer is falling over this Province and unsettled weather is becoming general. The weather is fine on the Northern Coast and rain is reported from Vancouver Island to Southern Alberta. Snow is reported in Northern Alberta.

Reports.
Victoria—Barometer, 29.82; temperature, maximum yesterday, 57; minimum, 48; wind, 4 miles S.W.; rain, .71; weather, rain.

Vancouver—Barometer, 29.82; temperature, maximum yesterday, 55; minimum, 50; wind, calm; rain, .66; weather, rain.

Kamloops—Barometer, 29.78; temperature, maximum yesterday, 62; minimum, 48; wind, calm; rain, .28; weather, rain.

Barkerville—Barometer, 29.80; temperature, maximum yesterday, 48; minimum, 32; wind, calm; snow, .56; weather, snowing.

Prince Rupert—Barometer, 29.94; temperature, maximum yesterday, 62; minimum, 42; wind, 6 miles E.; weather, clear.

Tatooch—Barometer, 29.78; temperature, maximum yesterday, 52; minimum, 48; wind, 14 miles E.; rain, .42; weather, cloudy.

Calgary—Temperature, maximum yesterday, 58; minimum, 40; rain, .96.

FORM A BRANCH

To the Editor—The visit of Sir George Foster suggests that the moment is opportune for the formation of a branch here of the League of Nations Society in Canada. Permit me to suggest that the Canadian Club initiate the necessary steps for the purpose and arrange for the inaugural meeting to coincide with Sir George Foster's proposed return visit in two weeks.

I feel sure a wide measure of support would be forthcoming.

COAST RANGE STEEL PROJECT

To the Editor—"Free Trader's" letter of the 17th inst. is very interesting.

I read the report of the meeting, and notice it was signed by H. Pooley, M.P.P., among others. How does this come about? Because, according to the report in the newspapers, Mr. Pooley went north with Mr. Bowser on the Saturday previous to holding the meeting on the following Monday.

I am presuming that the gentlemen of the above projected company were invited to attend this meeting. Whether they did or not I cannot say, but from the above, I am afraid they would not have got very far, when the answer must have been settled previous to the meeting. I should like to know more of the matter, if you

Films of Victoria Destroyed in the Japanese Disaster

Motion picture films of Victoria and a series of views illustrating local industries and scenic attractions have been lost in the Tokio disaster. The films and views, which were loaned to the Victoria and Island Publicity Bureau by the Federal Department of Trade and Commerce, were taken to

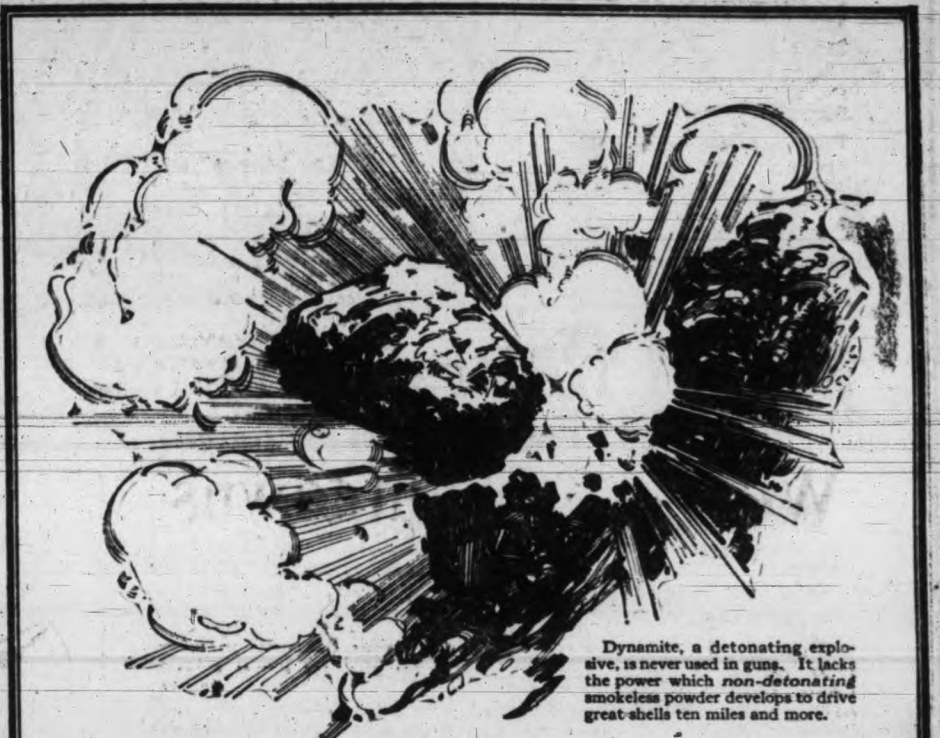

Japan by Mr. Sata, of the passenger department of the Nippon Yusen Kaisha for use at a free exhibition in the new head office building of the company in Tokio. They were to be used in connection with a campaign to stimulate interest in the Pacific Northwest.

Dynamite, a detonating explosive, is never used in guns. It lacks the power which non-detonating smokeless powder develops to drive great shells ten miles and more.

It Doesn't Detonate
—this gasoline of surer,
smoother power

MARK this difference in gasoline. Some explode instantaneously—detonate. Union Gasoline is non-detonating.

The detonating gasoline deals a sledge hammer blow upon the piston, depending on a single impulse to pound the piston down.

It has the tendency to explode prematurely, thus limiting compression and reducing power and efficiency.

It is frequently responsible for "knocking" on the hills. And by causing vibration, it increases wear and tear.

The Other Kind

Union Non-Detonating Gasoline delivers a prolonged explosion.

It thrusts the piston throughout the entire stroke—doesn't crash against it.

And because it does not detonate, Union Gasoline permits increased compression which results in increased efficiency and power.

New "Lift" on Hills

You'll notice a new "lift" on the hills—a steady, sustained stream of power, more speed on the level, a faster pickup and less vibration, which means less wear and tear.

Also more mileage because of increased efficiency.

Union Non-Detonating Gasoline is always uniform. It doesn't disintegrate, thus doesn't deteriorate in storage. It has all the power when you use it that it has when it leaves the Union plants.

This is one more reason for the use of this non-detonating gasoline.

IN WOMAN'S DOMAIN

DISTINGUISHED WOMEN AT CANADIAN CLUB CONFERENCE THIS WEEK

This photograph was taken at the close of yesterday's session of the Canadian Club Association and shows, in the back row from left to right: Dr. Ritchie England, Mrs. S. Dunn, Mrs. Raymond, Mrs. Claude Nash and Mrs. Bensall Porter. Lower row: Mrs. R. C. Fisher, Mrs. J. F. C. Hyndman, and Mrs. Rhys D. Fairbairn.

Mrs. Caspar Clarke, of Seattle, arrived in Victoria to-day, and is the guest of Miss Innes Bodwell, Rockland Avenue.

Mr. and Mrs. Lawrence Earle and baby are leaving on Saturday on an extended visit with friends in England.

Dr. and Mrs. Shattuck, who have been guests in Victoria for a few days, have left for their home in New York.

Mr. and Mrs. Albert Laird have returned to Victoria after visiting Mr. and Mrs. W. P. Martin, Shaughnessy Heights, Vancouver.

Mrs. Francioli and Miss "Dick" Dempsey, of Tacoma, who have been visitors in Victoria for a few days, have returned to their home.

Mrs. T. Cowley, who has been visiting with Mr. and Mrs. G. Service, Quadra Street, for a few days, has left for her home in Vancouver.

Mrs. Ricardo, of this city, is visiting her brother and sister-in-law, Mr. and Mrs. Jack Bell at Caulfield, near Vancouver.

Mrs. E. M. Cuppage, who has been spending the summer in Victoria, has left for Vancouver to attend next week's convention of the Canadian Women's Press Club.

Mr. and Mrs. Charles Rogers, of San Francisco, leave to-day for the South after spending a few days with Mr. and Mrs. E. H. Fisher, of Ardshire Road.

Mrs. Harold Eberts, who has been spending the past ten days in Portland as the guest of Mr. and Mrs. Holt Cookingham, is expected home to-day.

Mrs. Cossette, wife of Paymaster-Lieut. J. O. Cossette, of the Naval Barracks, on Sunday received the sad intelligence of the death of her mother, Mrs. E. Ronayne, who passed away on September 16.

Mr. and Mrs. J. M. Nichol, who have been the guests of Mrs. Nichol's parents, Mr. and Mrs. Norman Lang, Vancouver, have moved to their new home on Marjorie Avenue, Shaughnessy Heights.

Dr. Norman Williamson, of Montreal, is on his way to the coast to join Mrs. Williamson, who for the summer months has been the guest of her parents, Mr. and Mrs. Little, Rockland Avenue. Dr. Williamson is expected in Victoria on Saturday.

Mrs. Walker, president of the Ladies' Aid of the First Congregational Church, was hostess recently at her home on Albany Road at a miscellaneous show, to augment the articles for the Christmas sale of work.

Mrs. E. G. Prior entertained yesterday afternoon at her home on St. Charles Street at Mah Jongg, when her guests included Lady Barnard, Mrs. Galt, Mrs. Archer Martin, Mrs. J. O. Graham, Mrs. Ophout, Mrs. Ambury, Mrs. W. Todd, Mrs. G. A. Kirk, Mrs. D. M. Eberts, Mrs. C. Todd and Mrs. H. A. Ross.

Friends of Mr. Robbins, of the B. & N. Railway office in Victoria, will be pleased to hear that he has been promoted to the staff of the vice-president, D. C. Coleman's office at Winnipeg. He will leave on Friday for the East to take up his new appointment.

CANADA'S FIRST WOMAN M. P. IS VISITOR HERE

Miss Agnes McPhail, Farmer Member, Discusses Woman's Place in Politics

Miss Agnes McPhail, United Farmer member for Southeast Grey, Ontario, the first woman in the Federal House, is visiting in Victoria for a few days. She is opposed to any movement tending to place women in the Senate, for she is of the opinion that the Senate is useless and should be abolished.

Women entering public life must be prepared to accept equality with men and not privilege, Miss McPhail urges, for her experience in Parliament has taught her that while womanliness need not and should not be sacrificed, women must stand on their own feet to succeed.

"My experience has proved to me conclusively that women entering public life, if they wish to make a success of public life, must insist upon equality and not privilege. Equality implies the standing upon one's own feet and accepting the same limitations of privilege and responsibilities as the men; privilege inevitably means that either a woman asks for more than a man or signifies her willingness to be content with less."

Miss Agnes McPhail, United Farmer member for Southeast Grey, Ontario, the first woman to secure election in the Federal House, is visiting in the city for a few days and to a Times representative yesterday.

McPhail pointed out that smoking was probably no more objectionable to her than to non-smoking male members, and that she was anxious to be received on the same terms as the men, the males promptly followed the example of the Hon. T. A. Crerar, who smiled at the lady member and proceeded to light his "weed." "Since that date I have taken part in many a smoke-forged committee meeting," she observed with a twinkle, and I am now accepted as an ordinary member and not as an intruding woman."

Had Mixed Reception
The old male instinct of resentment at the intrusion of a woman into their sacrosanct meeting of Federal politics took expression in various ways. Some of the members were openly resentful, others treated the matter with levity and ridicule, while a few were genuinely glad to see a woman in the House of Commons.

A "Miserable" Session
According to Miss McPhail, her first session in the House made her very miserable. In her innocence she sat through every speech and attempted to follow every debate in full and the strain told upon her severely. Now she has learned to whom and to what to listen, thus conserving her interest and her value to her constituents. And it was not easy to be the first woman in the House! Miss McPhail says that she became hesitant at entering the lobby because the members immediately felt they must all stand up when a woman entered. Committee meetings had a feeling of strain, because the age-old custom of refraining from smoking in the presence of the opposite sex deprived the men of the solace of their pipe. But when Miss

LIVES OF PIONEER WOMEN TO RUN IN CLUB'S BOOK

Winnipeg Women Publish Delightful Narrative of Red River Days

While Women's Canadian Clubs throughout the country are united in bending their best efforts to the dissemination of British ideals, pride of place in the preservation of those traditions which gained strength in pioneer days in Canada must be given to the Winnipeg branch. Through the energy of its members, collectively and individually this Club is just publishing a book of early days in the Red River, which while proving an invaluable addition to present-day Canadian literature will have an even greater value in the years to come as a historic record of the fast-disappearing band of sturdy pioneers to whom the name-never-overso much of its initial development.

Story of Pioneers
Under the title of "Women of Red River," it unfolds a delightful story gathered in the narrative form from women surviving from the Red River era. Unlike the usual history, it is rich in personal reminiscence and humorous touches and is a striking revelation of the courage, hardihood and initiative of the real pioneer woman.

Beautifully bound in a cover depicting old Fort Garry and backed by a facsimile reproduction of the original sketch-map which was attached to the treaty made by Lord Selkirk with the Indians on July 18, 1817, the book is appropriately illustrated with reproductions of old woodcuts and engravings of scenes in the early days of the settlement.

While perpetuating the history of the pioneer women, the book will no less be a monument to the initiative and resource of the Women's Canadian Club of Winnipeg, for it is the first practical step made by any club to preserve a tangible form the traditions of the early settlers. The book represents years of slow, careful compilation. Every member of the Club was asked to hand in to the secretary, Mrs. Claude Nash, the names of pioneers. Mrs. Nash then gathered the narrative, the actual writing of the story and editing of the book was entrusted to W. J. Healy, Provincial Librarian of Manitoba. Mrs. R. F. Williams, the able president of the Club, handled the entire business end and through their joint efforts emerged the volume which stands unique as a Winnipeg production from first to last. The book will be published in October and applications for copies should be directed to Mrs. Claude Nash.

Worthy of Note
The example of the Winnipeg branch is well worthy of emulation by Clubs throughout Canada. The achievement of the Club is doubly interesting in view of the appeal made by T. W. Connell, before the Association recently, for the establishment of scholarships to enable boys and girls students to conduct much-needed historical research with

SAANICH BALL

Announcement has been made on the date for the holding of the annual Saanich police ball. The event will be held on the evening of October 24 in the Agricultural Hall, Saanich, under the auspices of the Saanich Council and Police Commission.

VICTORIA WOMEN'S INSTITUTE

The regular monthly meeting of the Victoria Women's Institute will be held in the institute rooms, Surrey Block, on Friday afternoon at 2:30 o'clock. A report of the proceeds from the lunch room at the fair will be given, also plans will be made for an exhibition of work and a bazaar. The feature of the afternoon will be a demonstration of the steam pressure cooker by Miss Edith Ravenhill. The hostesses will be Mrs. Millar, Mrs. MacLachlan, and Mrs. S. J. Roberts.

TO SPEAK ON BANKS

William Irvine, Labor M.P. in the House of Commons for East Calgary, will lecture in Trades Hall Sunday evening next. Mr. Irvine will deal with banks and banking operations in Canada in their relation to the industrial life of the country. During the recent session of Parliament, Mr. Irvine, assisted by his fellow labor representative, Mr. Woodsworth, attempted to prune the banking act, and his address will doubtless be listened with very great interest by the commercial and laboring circles.

AT THE THEATRES

ROYAL VICTORIA

The habitues of the Paris boulevard were treated to some real fun when the English director, Mr. Pearson, brought some of the delightful characters, Sam 'Opkins, Squibs and P. C. Charlie Lee over there to take many of the scenes of the latest and biggest English comedy hit "Take Me Back to Blighty," which will be the attraction at the Royal all week. The fastidious Parisian was shocked and delighted at the sight of Sam 'Opkins, the English bloke, all arrayed in a French walking suit, with silk hat and spats, and almost perfect as to dress, but nevertheless, being marked all over with the characteristics of a bloke, and going through his screamingly funny gesticulations in a manner that almost

SaturdayTHREE DAYS—Special Engagement of an Entirely New Feature,
Starring

HOPE HAMPTON and NITA NALDI

A modern Cleopatra steals happiness and honor from the home and laughs at the law. But a clever wife hits back in amazing fashion, and has the last laugh. It's from the sensational stage success by Samuel Shipman.

"LAWFUL LARCENY"

AN ALLAN DWAN PRODUCTION

NEXT WEEK

"Where the North Begins"

Starring the Wonderful Police Dog, Rin-Tin-Tin

doughnuts that his services will be constantly in demand from now on. As in the case of several others who play principal roles in this production, Cosgrave was chosen just because he had never been a screen actor, although he is a finished stage artist, and, of course, because he is the ideal man for the role of the invalid grandfather in the story, who comes to Hollywood for his health, and finds it, as well as opportunities he didn't expect.

Born in County Mayo, Ireland, Mr. Cosgrave came early to America and settled at Zanesville, O., and soon embarked on a stage career. He appeared in repertoire and stock, and with his own show.

In 1891 he came to Utah, and with John S. Lindsay, put on "Ingomar" and "Damon and Pythias," at the Ogden Opera House. Then he played in Salt Lake City and later in stock in Kansas City. He has been on the stage ever since. "Hollywood" is the second of this series of Super Productions to be presented at the Dominion this Fall.

PLAYHOUSE

The auspicious reopening of the Playhouse last week led to a well-filled house yesterday for the first presentation of Peter B. Kyne's famous story, "Cappy Ricks," as drafted into a three-act comedy by Edward E. Ross.

With this bright, sparkling comedy, admirably played, the Compton Comedy Company have an offering this week which deserves to fill the house at every performance. The scenery is again on elaborate lines and the feminine characters appear in a variety of wonderful gowns. The production is up to the standard of a high-class road company with scenery and costumes prepared for a long run.

The capable Compton players in "Cappy Ricks" adapt themselves to roles, different in some ways to those in which they usually appear, with an ease that speaks for their stage

ability. Francis Compton has the title role of Alden P. Ricks blending the part of a hard-headed man of business with that of the affectionate father of Florence Ricks taken by Miss Peggy Dundas. The vivacious Miss Dundas again is fortunate in having a part which gives full scope for her charming style. Clifford Winter played the part of the dashing young captain who clashes with the skipper in business ventures. Herbert Leslie is John Skinner, secretary to the Blue Funnel Line. Bruce Bredin supplied a lot of the humor of the piece as Cecil Pericles. Bernard, to whom the ladies are so irresistible that he is forced to flee from their charms and work as a sailor. George M. Durham as Edward Singleton, and Stanley Davies as Brookfield well sustained the company.

Miss Agnes Burton, who was again given a cordial reception, took the part of a noble old lady, Aunt Lucy Ricks, and was as successful in this part as she has been in her usual more vigorous roles.

Miss Belle Eilers scored a distinct success in the part of an ex-chorus girl who left the stage for secretarial work.

"LAWFUL LARCENY" EXCELLENTLY CAST

Nita Naldi is Seen as Cleopatra in Fine Photoplay

Hope Hampton is a screen star from the Lone Star State. She was born in Houston, Texas, in 1902. Equipped with all the freshness and vivacity that comes from a healthy life in the open, she determined, upon graduation from the local high school, to embark upon a dramatic career. Her mind made up on this point she came to New York with her mother and became a student of the Sargent Dramatic School, the foremost school of its kind in the country.

The instructors of the school quickly realized they had a find. They allowed her to play an important role in the annual play and her work was favorably commented upon. She received many offers to play upon the stage and in moving pictures and chose moving pictures. Later in New Orleans she won a prize in a beauty contest.

Her first picture was Maurice Tourneur's production of "Woman," in 1918. The following year she was starred in "A Modern Salome." Her subsequent pictures were "The Bolt," "Stardust" and "The Light in the Dark."

Miss Hampton's latest appearance will be in "Lawful Larceny," a Paramount, now playing at the Capitol Theatre, in which she is featured with Nita Naldi, Lew Cody and Conrad Nagel.

In the past two years she has made many personal appearances, and leaves in her wake thousands of new fans. Her stage presence, her singing and personality are captivating and her appearance at any theatre is a signal to fans to come early if they want to get in to see their favorite. Because of Miss Hampton's beautiful natural coloring she was selected to introduce a new color process to the public in her picture, "The Light in the Dark."

Miss Hampton's home is at 1145 Park Avenue, New York City. She is not married. She is devoted to her hobbies which are the breeding of dogs, and music.

"PRAIRIE TRAILS" IS NOW AT COLUMBIA

Popular Tom Mix, Cowboy Star, Discovered "False Wild Westerner"

While George Marshall, the William Fox director, was preparing to make a scene in "Prairie Trails," the big Tom Mix feature which is coming to the Columbia Theatre to-day, a raw-boned stranger appeared at the casting wicket and announced that he wanted to be an actor.

"What can you do?" asked Mr. Marshall's assistant. The stranger glanced at the sign "Casting here for prairie trails."

"This here Prairie Trails," he said, "I been in a good many trials in my time, and I guess I could do a judge."

"Not in this picture," said the casting man. "This is a Western picture—cowboys and things."

"I was a cowboy for ten years," replied the stranger. "Gimme a horse."

Mr. Marshall had to admit that the lad could ride. He looked like a cowboy, too. That night the company went on location, and the "cowboy" went along. Around a campfire he regaled his fellow extras with hair-raising stories of his prowess as a cowpuncher.

In the morning he got his chance to prove that he was an actor. The scene called for six cowboys to come racing hell-for-leather over the brow of a hill drawing their revolvers and firing in the general direction of Tom Mix, who was riding 200 yards ahead. Along they came, but the stranger waved only his hands—no revolver.

"Stop," cried the director. "That man hasn't got his gun out. What's the matter with him?"

"I can't get it out," the "cowboy" stammered.

The director tried, failed and investigated.

"If I find the man who poured glue into this fellow's holsters," he said, "I'll fire him." He looked around. All five of the cowboys were stroking their chins.

"You're fired," said Mr. Marshall to the stranger. And as the latter rode away, one of the riders was heard to murmur: "He looked like a cowboy, too."

At \$10.00—A Jaeger, Pure Wool Cardigan, with plain taupe color back and sleeves. The front is of grey and taupe, in a striped effect; the pockets are trimmed with taupe. This can also be had in grey and blue heather effects.

SUMMARY REPORT MOVED

The Summary Report of the Geological Survey for 1922, Part A, has just been published. It contains the results of field work carried on in British Columbia and Yukon territory. It presents reports on Southern Yukon, the coast and islands of British Columbia between Douglas Channel and the Alaskan boundary, an area between Kitimat River and Skeena River, the Albern area, the Yale and Similkameen mining divisions, placers of the Cedar Creek

area, and the bedrock geology and quartz veins of the Barkerville area. Copies of the report may be had by applying to the Director, Geological Survey, Ottawa, or 510 Pacific Building, Vancouver.

HUNTING FATALITY

Thetford Mines, Que., Sept. 20.—Alphonse Loignon, eighteen, was killed here Tuesday night when he was mistaken for a deer by hunters. No trace of the responsible parties has been found.

Stacomb
For Hair That Won't Stay Combed

Unruly hair, dry and brittle hair—soft and fluffy hair—all kinds of hair stay combed with STACOMB.

Brings out a rich, natural luster, too.

Adds the final touch to a neat personal appearance. Stars of the stage and screen—leaders of style—have used STACOMB for years.

Ideal for after washing your hair. STACOMB means prettier hair for women—tidier hair for children.

For sale at druggists or wherever toilet goods are sold. (Not a liquid.)

Standard Laboratories, Inc., Los Angeles, California, U.S.A.

OCEAN AND COASTWISE SHIPPING

EMPRESS LINERS
WILL MAKE PORT
THIS WEEK-END

Are Docking Earlier Than Expected; Asia Due Saturday, Australia on Sunday

Not expected until Monday and Wednesday the Empress of Asia and the Empress of Australia, of the Canadian Pacific steamship line, have given the local officials a surprise and report that they will dock here on Saturday and Sunday respectively.

The Asia is now reported due to arrive here at 9 o'clock on Saturday morning, and the Australia Sunday noon. Up until yesterday no direct word had been received from the Empress boats.

At 8 o'clock last night the Empress of Asia, which left Hongkong on September 6, reported that she was in latitude 50, 40 north and longitude 152.06 west. This brings her in the same vicinity as the Empress of Australia, which is a slower boat than the Asia. The Australia reported at 9 o'clock last night that she was 1,555 miles from Victoria.

The earlier arrivals of the two Empress liners are due to the fact that both ships dropped Yokohama from their itinerary. The Empress of Australia, which was at Yokohama during the earthquake, left direct from Kobe, where all trans-Pacific liners are leaving from now, as the harbor of Yokohama is unnavable.

The Empress of Australia had a most eventful voyage to the Orient. First encountering the typhoon at Hongkong she rode it out safely, and then proceeded to Yokohama, only to go through another frightful experience, that of riding out an earthquake and taking part in the rescue work of the stricken seaport.

That there will be many interesting stories to be related on the ship's arrival here is indicated by the advance reports that state that the officers of the Empress of Australia played an heroic part during the earthquake and saved many hundreds of lives.

DEL ROSA TO PLY
IN COPPER TRADE

Is Loading on the Columbia River For South America; Admiral Goodrich Sold

Seattle, Sept. 20.—The Del Rosa, former Shipping Board steamship, bought several months ago by the Alaska Steamship Company, which has made three voyages to Alaska for salmon and copper ore, is going to the Columbia River. The Del Rosa, which left here yesterday, is to load on the Columbia River. The ship is to be equipped for the Braden Copper Corporation, which is affiliated with the Kennecott Copper Corporation. She will call at San Antonio, a new port in Chile, a few miles from Valparaiso. She is to bring back copper ore and nitrate for the Tacoma smelter.

Report that the Admiral Goodrich had been sold by the Pacific Steamship Company to the Union Lumber Company, of San Francisco, was confirmed yesterday by H. F. Alexander, president of the steamship line. The Goodrich was rated as too small for service between the Columbia River and California, and has been replaced by the motorship Chalmers.

The Brookdale, of the Crosby Marine Corporation, which had been converted to burn oil instead of coal, shifted last night to Tacoma to load for San Pedro. Preparatory to a voyage of 7,000 miles to the South Seas, the little whaler Star II, and Star III, which are to be used in Antarctic waters, shifted here yesterday from Winslow.

C.G.M.M. Strike
is Called Off

Vancouver, Sept. 20.—The strike of the seamen employed on the Canadian Government Merchant Marine vessels, in effect twelve weeks, was called off yesterday by a vote of the men. The company did not make any concessions to the men and the union was informed that there would be no discrimination against the strikers.

LOCH KATRINE IS
TAKING OUT FIRST
WHEAT SHIPMENT

Loading of Jefferson Being Rushed; Grant Due Next Week From Japan

N.Y.K. Line Lays Protest Suit on Income Tax Paid in 1918

Seattle, Sept. 20.—The British motorship Loch Katrine is to begin loading today the first wheat to move from Seattle by water in bulk this season. The Loch Katrine, which has received canned goods, including milk and salmon here, is to shift to Tacoma and Vancouver, B.C., to take on grain and lumber.

Because of delays experienced by the steamship President Jefferson in landing survivors of the Tokyo-Yokohama catastrophe and in bringing refugees to this country, loading of the vessel on Puget Sound is being rushed. She returned here yesterday from Tacoma, where she took flour, lumber and other goods. Lumber is being put aboard here from scows. The President Grant, which was delayed sailing, is expected to reach here September 28 instead of next Wednesday. The officers of the Admiral-Oriental Line declare that both the Jefferson and the Grant will leave Puget Sound on time.

After loading several hundred tons of general cargo here the Suibachio, of the Transmarine Corporation, shifted yesterday to Bellingham to take on lumber.

The passenger vessels and two of the freighters of the Matson Navigation Company are to be equipped with radio compasses. It was announced yesterday.

Suit for \$1,243,385 income tax paid in 1918, under protest with interest and charges, was filed in federal court here today by the Nippon Yusen Kaisha. The complaint alleged that the greater part of the payment was made on income derived from operation of foreign steamships from the United States to foreign ports and that such collection was contrary to the constitution of the United States.

ITALY REAPING
TRAVEL HARVEST

Rome, Sept. 20. (Associated Press).—The Italian tourist trade has resumed its pre-war status. Before the war the tourists flocking into Italy from all parts of Europe added 600,000,000 lire, or \$100,000,000, to the exchange rate of those days, to the wealth of Italy. In 1922 tourists from all over the world brought 2,000,000,000 lire to Italy, which calculated at the present rate of exchange would give about the same sum, \$100,000,000.

Coupled with remittances received from Italy, emigrants, mainly in America, this tourist revenue used to be sufficient to balance Italy's adverse trade balance. The emigrant remittances, especially during the present year, show a considerable falling off, probably owing to the restricted migration system now in force in the United States. In 1922, however, the emigrant remittances equaled their pre-war figure, which was about the same as that of the tourist expenditures.

The falling-off of revenue from the emigrant source has stirred the various commercial organizations to look for the missing income in an extension of the tourist business. At present tourists go over the beaten paths outlined by the travel companies. But that is not all of Italy, say the Italian promoters. While they point to Rome, Naples, Sicily, Florence, Venice and the Italian Alps as being the chief tourist patronage, they insist that regions of the Abruzzi, the Puglia and Romagna are also to be considered as possessing great tourist attractions.

VESSEL MOVEMENTS

Seattle, Sept. 19.—Arrived: President Jefferson, Mexican, Tacoma; Norland, Bellingham; J. W. Van Dyke, San Pedro, Texas, Vancouver; B.C.; Wilmington, Everett; Seattle: Admiral Rogers, Alaska; Admiral Farragut, Santa Paula, Everett; President Hayes, Portland; Munaires, Tacoma.

Tacoma, Sept. 19.—Arrived: Munaires, New York; Amul, towing; Barod, Britannia Beach; Admiral Rodman, New York; Lewis, Lockenbach, Seattle; President Jefferson, Manila; Admiral Rodman, Seattle; Alaska, Seward; Kube, New York.

San Francisco, Sept. 19.—Arrived: Wallingford, Astoria; Margaret Dollar, New York; Lewis, Lockenbach, Seattle; Horace X. Baxter, Seattle; Wilhelm, Anacortes; Ingram, Seattle; Lockenbach, Seattle; Gundo, San Diego, Seattle; Melville Doland, New York; Venezuela, San Pedro; Maui, Honolulu.

WRECK OF SEAPLANE SEAGULL NEAR OGDEN POINT

This is all that is left of the powerful Curtis seaplane which was wrecked 500 yards off the breakwater on Saturday night when returning to Seattle with a press representative of The Illustrated News of Los Angeles. He was carrying \$5,000 worth of pictures at the time and lost all. The three occupants had a miraculous escape, having to unstrap themselves from their seats while under the water, as the plane turned upside down when it struck a log in the water.

SHIPPING BOARD
FLEET VALUED AT
QUARTER BILLION

U.S. Shipping Board Owns 1,334 Ships, With 882 Idle

Vessels owned by the Shipping Board, numbering 1,334, have a total value of \$226,733,315, according to estimates of the Shipping Board as of September 8, announced this week.

The 316 ships in operation or in "spot" condition are valued at \$137,311,940, while the laid-up fleet, embracing 882 vessels, is placed at \$87,906,375. In addition, there are thirty-five tugboats, operating or idle, valued at \$1,515,000. The board estimates the total value of the fleet as of July 1 at \$227,732,615. Six ships have been sold since that date for a total price of \$99,900.

Following is a summary of the report: 365 cargo carriers, operating, valued at \$81,390,410; 802 cargo carriers, idle, at \$17,568,298; nineteen tankers, operating, at \$8,608,250; twenty-six tankers, idle, at \$5,558,670; two refrigerator steamers, operating, at \$923,300; twelve refrigerator carriers, idle, at \$1,094,136; five class "F" usable, idle, \$374,773; nineteen damaged and obsolete vessels, \$474,500; one cable transport, idle, \$25,000; five transports, type "B", idle, \$1,225,000; thirty passenger carriers, operating, \$46,390,000, and three passenger carriers, idle, \$1,400,000.

The value of the Diesel motorship William Penn is given as \$742,500. As regards condition of the fleet, the report shows 328 freighters in the three divisions of Class "A", of which 109 are laid up; 177 in the two divisions of Class "B", with only one operating; eighty-four in Class "C", with twenty-eight operating; 35 in Class "D", with twenty-seven operating; 175 in Class "E", with eleven operating; and thirty-one in Class "F", none operating.

For the first time since they left the Japanese Empire, the Canadian Pacific liners Empress of Asia and Empress of Australia were heard from today. They were reported in the Gulf of Mexico, Asia in latitude 49.28 north, longitude 172.18 west, and the Australia in latitude 49.18 north and longitude 175.18 west.

A large quantity of fish and canned sardines arrived here yesterday when the schooner Maui, of the Matson Line, sailed from here for Honolulu at noon today. The 229 passengers looked on the Maui from the largest list leaving here for the island port this month.

The value of the Diesel motorship William Penn is given as \$742,500. As regards condition of the fleet, the report shows 328 freighters in the three divisions of Class "A", of which 109 are laid up; 177 in the two divisions of Class "B", with only one operating; eighty-four in Class "C", with twenty-eight operating; 35 in Class "D", with twenty-seven operating; 175 in Class "E", with eleven operating; and thirty-one in Class "F", none operating.

San Francisco
Bought Relief
With Funds

San Francisco, Sept. 20.—With the departure of the steamer Vega from this port for Yokohama yesterday, the first relief supplies purchased with funds contributed by San Franciscans are going forward to victims of the Japanese earthquake, tidal wave and fire.

The vessel is bearing 5,000 tons of provisions, medicine and rice, valued at \$571,804. Impressive ceremonies marked the ship's departure.

Mayor James Rolph, Jr., representatives of the Chamber of Commerce, the American Red Cross and army, navy and marine officials were in attendance.

Consul General Ujio Oyama accepted the cargo on behalf of the Japanese government.

Although several ships have sailed from here recently carrying considerable quantities of relief and food supplies the Vega is the first vessel with a complete cargo for disaster victims, most of which was purchased with part of the \$500,000 quota raised in San Francisco for relief.

HOSPITAL SUPPLIES
WILL BE TAKEN OUT
ON THE JEFFERSON

Seattle, Sept. 20.—The Admiral Line steamer President Jefferson, which sails for Yokohama next Sunday, will carry supplies for the relief of the victims of the Japanese earthquake, tidal wave and fire.

Dr. R. B. Towler, of Richmond, Va., head of the hospital, who was in this country at the time of the earthquake, will sail on the Jefferson to take charge of the new establishment.

JEFFERSON WILL
TAKE OUT MANY
PASSENGERS

Four Hundred Passengers and Relief Supplies to go to Japan

With big shipments of relief supplies and more than 400 passengers, including representatives of the American Red Cross, the Admiral Oriental liner President Jefferson is scheduled to sail from Seattle at 11 o'clock Sunday morning, bound for Japan, China and the Philippines.

The President Jefferson served as a relief and wireless ship off the coast of Asia immediately following the Japanese earthquake disaster, and brought the first refugees to this coast, landing them in Seattle.

Aboard the President Jefferson when she sails next Sunday morning will be Mr. and Mrs. Henry R. Norweb, first secretary of the American embassy at Tokyo; Jefferson Caffrey, councillor of the American embassy in Tokyo; Mrs. A. G. Henderson, bound for Manila to join her husband, who is Oriental agent for the Great Northern Railway Company; W. A. McKellar, manager of McLeod & Co., of Manila; Mrs. McKellar; W. H. Ramsey, of the national headquarters of the Red Cross, Washington, D.C.; and Dr. R. B. Towler, purchasing agent for the Red Cross, who will investigate the needs of the refugees in Japan.

The President Jefferson's relief cargo will include 400,000 cans of salmon, 858,000 cans of condensed milk, 1,000 tents and 1,250 rolls of bedding, purchased by relief funds. Space for the relief supplies aboard the vessel was donated by the Admiral Oriental line, the cargo was stored free of charge and the stevedoring was donated.

If conditions are not improved in Yokohama, the President Jefferson will land her passengers for that port and Kobe, according to representatives of the Admiral Oriental line.

ADMIRAL ORIENTAL
LINE SHIPS WILL
TAKE OUT RELIEF

Six Vessels Will Take on Cargoes For Japan on Sound in Next Three Weeks

Seattle, Sept. 20.—Within the next three weeks, six freighters of the Admiral Oriental Line, all carrying relief supplies for the earthquake-stricken Empire of Japan, will be dispatched from Seattle and other Puget Sound ports. It was learned today from representatives of the company.

The fleet will be composed of the steamship Edmore, Wheeland and Manfana, West Cadron, Bearport, West Henshaw and Cross Keys.

The steamship West Henshaw, which has been lying idle in San Francisco, will load 5,000,000 feet of lumber on Puget Sound for Japan. The vessel will have one of the largest lumber consignments loaded on the North Pacific and about 1,000,000 feet more than the average lumber cargo.

The West Henshaw is a welded ship and especially adapted for carrying high lumber cargoes. The steamship Edmore is expected to be ready to go to sea tomorrow.

Conference Being
Held in Seattle
to Discuss Rates

San Francisco, Sept. 20.—General agents of the McCormick Steamship Company will meet here today for a three-day conference. Coastwise and inter-coastal shipping problems will be considered.

The tariff on cash registers was reduced from \$1.15 to 90 cents by the local bureau of the inter-coastal conference here yesterday. Another meeting will be held Friday when the question of a slash in copper rates is to be considered. The United American and Panama lines have been admitted into the conference.

The German steamer Ingram arrived here yesterday from Antwerp via the Panama Canal. The vessel is the second German steamer to arrive here since the day before, carrying a general cargo, consigned to the Williams Diamond Company.

Establishment of anchorage grounds in San Pablo Bay, Carquinez Straits and Suisun Bay and rules and regulations to govern use of such grounds were considered at a public meeting held in the customs house here this afternoon.

STORM RAGING IN
BEHRING SEA MAY
PROVE TO BE FATAL

Schooner Teddy Bear and Other Boats Missing; Search Party Organized

Nome, Alaska, Sept. 20.—The government of the Territory of Alaska has ordered a party organized here to search for the schooner Teddy Bear and other boats that it is feared may have been lost in a terrific storm that has been raging over Behring Sea for two days. Aboard the Teddy Bear was an American naval survey party coming south from Point Barrow under command of Geologist Foran.

The schooners Sea Wolf and Silver Wave, which like the Teddy Bear were more than a week overdue here, have been located at Kotzebue, on the Arctic Ocean, unharmed.

The Teddy Bear searching party is to be commanded by Captain Thomas Ross, of the Nome Station of the United States coastguard.

Ship Sends Out Distress Signal; Cannot be Found

New Haven, Conn., Sept. 20.—No steamer in distress was sighted east of here in Long Island Sound today when the fog lifted, and reports for twenty miles alongshore failed to locate the vessel which by radio signals last night indicated that help was needed.

WILL TRANSHIP
EUROPEAN CARGO

Panama Pacific Line to Allocate Space For European Cargo

Space for European cargoes up to 1,600 tons to be transhipped at New York, will be allocated on each steamer in the new Panama Pacific Line intercoastal service in line with its announced policy of developing this phase of the coast-to-coast traffic according to R. J. Ringwood, freight traffic manager of the Admiral Line, Pacific Coast freight agents, who returned this week from a conference with Panama Pacific officials at New York.

The schedules will be arranged so that the vessels from the Pacific Coast will arrive at the New York pier occupied by one of the transatlantic liners the day before the latter sails. A combination of the two conference rates will be quoted. The I. M. M. freighters Montauk and Montana will be placed in the intercoastal run, serving the Columbia River and Puget Sound, as well as the California ports reached by the passenger liners. The intercoastal lumber trade recovers, but not before Mr. Ringwood said. He added that the company did not wish to demoralize rates by increasing the available tonnage when the market was weak.

"The Panama Pacific Line is a distinct organization from the rest of the I. M. M.," said Mr. Ringwood. "It will have no direct physical connection with the I. M. M. on the Atlantic except that it has been appointed general freight agent on the Pacific Coast for the entire I. M. M."

DOUBTED SIGNALS;
CRASH RESULTED

San Diego, Cal., Sept. 20.—Radio compass signals from Point Arguello showing them to be still far north of the point, appeared so unreasonable to navigators aboard destroyer squadron No. 1 on the night of September 8, that they finally laid their course on the exact reverse of those directions and as a result crashed into the rocks well north of Point Arguello. Lieut. Laurence F. Blodgett, navigation officer on board the U.S.S. Delph, told a Naval Court of Inquiry here.

NEWS IN BRIEF

There will not be a dance at the Temperance Hall, Keating, this Friday, but a tombola dance will be held instead next Friday, September 28.

Dr. Ernest Hall has returned from San Francisco, where he had attended a convention of 120 followers of Dr. Albert Abrams held between September 12 and 15. An electronic basis for diagnosis of disease, the Abrams theory, is receiving greater and wider attention daily.

Tillicum and Strawberry Vale school grounds will be improved at once, the Saanich School Board last night decided. Tillicum operations will include grading the five lots recently purchased, to form a football ground, while draining and grading will be the chief operations at Strawberry Vale.

Four of ten deer heads given to Messrs. Wherry & Tow for preservation this week since the opening of the hunting season have been tanned. Ten-point antlers are unusually fine for island deer, it is stated, and their prevalence this year points to an exceedingly fine season for the deer in island woods.

Mr. and Mrs. Wayne Miller, Miss Dorothy Miller and Mr. Hall, of the Universal Motor Company, Sacramento, Cal., have left for home after a delightful tour on the island, during which they made their headquarters at the Brenta Lodge, Saanich Arm. Mrs. Powell's son, Alfred Powell, drove the Miller car home, while they went back by sea.

Alderman Leeming and Ker, with Dr. Price and H. S. Pringle, will meet the city's representatives on the Jubilee Hospital Board in conference at 3 p.m. to-morrow. Messrs. James Forman and H. Hill act for the city on the hospital board. Matters in connection with the cost of insulin treatments and other points affecting city patients at the institution will be taken up.

Two motor cars on fire to-day received attention at the hands of the city's fire department. The first outbreak was when a car owned by the Murphy Electric Company caught fire at 2:55 this morning on Robertson Avenue. Later, at 9:40 a.m., a car owned by E. L. Pennington caught fire on Broad Street in front of The Times Building. The damage was slight in either case.

The salient features of Victoria are set out in 250,000 Pacific Steamship Company menu cards which have been distributed in the last four months the Victoria and Island Publicity Bureau is advised. E. G. McMicken, writing for the company states that the menu cards are to be used on the coastwise and Alaskan vessels. "We are interested in your city and anxious for any particulars that will enable us to give it the representation it deserves," he writes.

The members of the Inter-Municipal Cemetery Board will meet in connection with the morning of the city clock to take up matters in connection with work on the new cemetery and other points. The remaining \$10,000 of the bond issue allotted to the board are still in the hands of the printers, and although several good offers have been received for the sale of the bonds, the sale will be arranged privately and not by tenders, it has been determined.

Mr. and Mrs. Alexander Munro, of Vancouver, missionaries of the Japan field, but here on furlough, will hold a series of Gospel and Divine healing services in the schoolroom of the Reformed Episcopal Church, Humboldt Street, beginning on Monday of next week. Mr. Munro was associated with Dr. C. S. Price in his work among the Japanese in Vancouver. He will speak at the hall, 1019 Cook Street, on Friday at 8 o'clock.

According to a report from Acting Comptroller James M. L. Mulhead to the City Council in session yesterday afternoon, prepaid tax receipts in the city up to August 31 totalled \$155,506. Trade licenses brought in \$29,451. The sum of \$6,320 was realized from poll taxes, while road tax accounted for a further \$2,710. Police Court fines reached the high level mark of \$10,453. The report constituted a return to the monthly statement known in former days, but disrupted latterly due to the death of the late City Comptroller. The report covered the first eight months of the year.

In a whirlwind session of the city police court to-day the city gained \$75 in fines. Mong Shui and Charlie Leo paid \$20 for speeding. John Milligan, Robert Stark, F. W. Jones, A. McKennie, C. Todd, A. McAllister, D. A. McPhee, Lee Chung, and Wong Ping each paid \$5 for failure to have rear lights operating on their cars after dusk. Thomas Smith, Lee Bing, and Henry Thompson each were fined \$3 for cycling without the requisite lights after dusk. William McKinley paid \$2 for the same offence. Sam Ming Chie, whose car was in the garage all day, he alleged, and Edward Harris whose cycle lamp had been stolen, shared together the only acquittals of the docket.

PRESENTATION

A most enjoyable evening was spent Tuesday at the home of J. O. Dickson, Elk Lake, by the members of the Elk Lake Church and Sunday School. Rev. Frank Hardy, M.A., presiding.

The meeting opened with gramophone selections, followed by a selection on the piano by Miss Flo Dickson, after which Mrs. Walter Cotton rendered two songs, very beautifully accompanied by Mrs. Hardy. The Sunday School choir gave a selection, accompanied on the piano by Mrs. Putland, after which Mr. and Mrs. Putland were presented with a Sheffield plate jam dish from the friends, and Miss Gladys Putland with a pair of silk handkerchiefs from her classmates in the Sunday School. The presentation was made by the Misses Jean Dickson and Elsie Cotton. Mr. Hardy spoke appropriately.

Mr. and Mrs. Putland will leave on Wednesday for Burnaby, where they will reside. Mr. Putland is taking his business again with his old partner, Mr. Brooks.

Mr. and Mrs. Putland are also superintendent of the Sunday School and Mrs. Putland was organist for both church and Sunday.

LORD MAYOR OF YORK ADDRESSES LOCAL ROTARIANS

Brings Greetings From City of York to Victoria Club

Says Rotary Will Bind Dominions to Motherland More Firmly

Alderman James B. Inglis, Lord Mayor of York, England, was guest of honor and speaker at the Rotary Club luncheon held to-day at the Mayor's Home, Esquimalt. After visiting the Siberian Prince, where she lies in drydock at Yarrow's plant, with her hull damaged after running on the rocks at Benbow Island, the members of the Rotary Club took themselves to the Mayor's Home, where luncheon was served.

The Lord Mayor, who has been expected in this city for the past three weeks, first apologized for his untimely delay in coming, and then expressed himself as being appreciative of the manner in which the Rotarians had helped and welcomed him all along his route. "The Rotary spirit is spreading in the Old Country," he said, "and will tend to unite the Mother Country and the colonies. It will unite the hands across the sea in a far stronger grip than there has previously been. The Rotarians of York extend their most hearty greetings to you all."

"The Capital of the North," the speaker asserted, for not having prepared an elaborate address he felt that he must entertain the Rotarians to the best of his ability. "When David was writing his psalm, York was a town," someone once said. This will give you some idea of the antiquity of the city from which I come to you. It has many points of interest, and one of the chief of these is its magnificent cathedral—York Minster. This is one of the oldest churches in England, and during the war it was found that some of the windows are as big as a full sized tennis court, the extent of the work in hand may be imagined. No portion of the glass in these windows is larger than the top of a tea cup, and the leaded work is extraordinarily fine.

"I am sorry," said the Lord Mayor, "that I was unable to bring to you the mallet which I believe it was understood I would carry to Victoria and present to your club. However, I only had a few minutes, and of these I felt I should leave with the New York people, another with the Chicagoans, amongst the men who founded Rotary, another in Montreal, where I have strong ties, and the fourth with the Free Masons. But I promise that I will send you one if I can possibly arrange to do so, on my arrival home." This announcement was greeted with prolonged applause by the Rotarians. The mallets are made from the oak of the cathedral, saved from the fire of 1871.

"One thing that strikes me when I visit your Canadian Rotary clubs, is the happy way in which you do your business and carry on your work," the speaker continued. "I like the manner in which you address one another, using Christian names. This is a very interesting feature when I return to York. When I go back to England I shall certainly try to impart at least a part of the fine spirit of Rotary which you display here."

Badges of Office

The Lord Mayor proceeded to show to the Rotarians some interesting replicas of badges of office which were the possessions of the Lord Mayors of York. Among these was a chain of four closely woven rings of gold, the two older rings over 500 years old. The third ring was added in 1842 when King James passed through the city. He also displayed the chain worn by the Lady Mayors, and the badge of office presented to the city by Alderman Sir Joseph Stiles Rymer, who held the office of Lord Mayor from 1887-88 and from 1889-1890.

During the Lord Mayor's conversation with The Times representative subsequently he displayed a telegram received by him from His Royal Highness the Prince of Wales, travelling incognito as Baron Renfrew. The telegram read as follows:

"To Alderman Inglis, Victoria, B.C. Lord Mayor of York: My best thanks to you and Lady Mayors for your good wishes, which I sincerely reciprocate. I am delighted to hear that you are in Canada. Renfrew."

Alderman Inglis expects to leave New York for England on October 20, and will go from here to Seattle on Saturday. From that city he will journey down the coast, visiting many of the important towns of California and other states.

The Lord Mayor has held several important positions during his life in his home town. At one time he was Governor of the old Merchant Adventurers' Company, incorporated to organize trade between Europe and the city of York. He has risen through the different degrees of the Masonic Craft, and is also president of the Rotary Club of York. He was sheriff of the city in 1912, and has held many other equally important offices.

The Bible Class in connection with the Guild of Health in Christ Jesus Our Lord, will be held on Friday afternoon at 3 o'clock, in the schoolhouse of the Church of Our Lord, Humboldt Street. All interested are cordially invited to attend.

The Rev. T. E. Rowe, director of the Guild of Health, will lecture in the cathedral schoolroom to-morrow, at 8 o'clock. All members and friends of the guild are cordially invited.

PREMIER SAYS HE IS NOT AFRAID OF BOWSER'S BIG TOUR

"Purely Imaginary," said Premier Oliver, when questioned to-day in regard to the statement appearing in the morning newspaper that Liberal leaders were alarmed at the result of W. J. Bowser's tour in the north.

The Premier said he had promised members from the north at the last session of the Legislature that during the present summer he would visit that portion of the Province. At that time, the Premier expected the Province's appeal on the freight rates question to be settled before Parliament met in January last. Having had to go to Ottawa on this appeal case in August, the Premier's tour to Prince Rupert and along the line of the Grand Trunk Pacific had been delayed.

The Premier said he was very glad that Mr. Bowser had preceded him on this tour as it would enable him effectively to disprove many of the statements being made by the Leader of the Opposition. The Premier added that he did not consider Mr. Bowser any more dangerous at the present moment, and that he had been any time during the last six or seven years.

RURAL SCHOOLS IN SAANICH LOSE IN ENROLLMENTS

Nearly Two Hundred Vacant Seats in Saanich System

High School Attendance Continues to Grow Apace

Nearly two hundred fewer pupils are now attending the Saanich school system, compared with the maximum attained in 1922, the school board last night discovered.

Secretary Rawlins reported that the present enrolment totals 1,575, made up as follows:

Cedar Hill, 186; Cloverdale, 250; Craigflower, 107; Gordon Head, 35; Keating, 65; McKenzie Avenue, 175; North Dairy, 45; Prospect Lake, 47; Royal Oak, 85; Saanichton, 40; Strawberry Vale, 101; Tillicum, 230; Tolmie, 238; Tolmie Primary, 82; and West Saanich, 38.

Rural Decreases

The trustees noted that attendances at the large urban schools were up to the average in general, with Tolmie showing an increase. The enrolment losses are equally distributed among the rural schools; with Gordon Head one of the most marked in the loss of pupils.

Ten Years' Growth

In 1912 the Saanich schools had an enrolment of 502 children. This had increased to 1,085 by 1915, and continued to grow throughout the war years, December, 1919, showing 1,432 under instruction. The 1922 school year commenced with 1,720 children in September, while 1923 had an enrolment in the same month of 1,827.

High School Popular

While attendances at the graded schools show this downward trend, the attendance of Saanich pupils at the Victoria and Oak Bay high schools continues to show progression, the board anticipating that, when final figures are received, a high mark of almost 150 pupils will be attained this year, each attendant costing Saanich \$85 yearly.

WOULD LIKE S.P.C.A. BRANCHES EXTENDED UP-ISLAND

The Victoria branch of the B. C. Society for the Prevention of Cruelty to Animals earnestly hopes that country districts will organize associations or branches of the S.P.C.A., as it is difficult for the local society to cover the numerous districts from which complaints are received, or where no protection to animals is afforded.

The Victoria Society will be only too glad to help this movement forward if other localities will show some interest in organizing such a scheme. Major Tomlinson is kindly watching the interests of the society in Cowichan District, and Mr. Cosens in Alberni, but a wider attempt to promote kindness to animals is necessary from every viewpoint.

The inspector's report for the last two months, made on Tuesday at the committee meeting, included the following investigations:

Dogs, 15; Horses, 19; cats, 20; cows, 2; miscellaneous, 3; goats, 2; monkey, 1. Cases in court, 3; convictions, 3.

Two horses were destroyed by the inspector during the recent race meetings with the society's humane killer, which is most satisfactory in every way.

Among the questions considered by the board were Rodeo exhibitions, which all humane societies wish to see abolished; killing of sea lions by machine gun fire; animals in markets; humane education in schools; juvenile courts; transport of animals. An invitation to send a delegate to the world conference on humane work to be held at New York was also received, and the fun of the organization do not allow it to participate in this conference, which is of such great moment to the cause of humanness.

For cases of cruelty please telephone the inspector, 7619. Communications should be addressed to the honorary secretary, Miss D. Kitto.

The Columbia Diocesan Board will meet at Metehosin on Friday at 11 a.m. Transportation arrangements may be made through Mrs. Colin Cummins, Alexandra Club, Pemberton Building.

LITTLE HOPE FOR MUNICIPALITIES' INCOME TAX PLAN

Province Will Not Collect Revenue For Cities, Premier Warns

"We do not propose to make ourselves an agency for collecting municipal taxation," Premier Oliver declared to-day when asked about the Provincial Government's attitude towards the proposal of British Columbia municipalities that they be given a share of the provincial income tax.

The income tax plan of the cities will be pressed by the Union of British Columbia Municipalities, when the Legislature meets in the Fall. The Premier's statement to-day, however, is taken to mean that the Government is still opposed to the scheme as it has been in the past.

"The Provincial Government has plenty to do now without collecting taxes for the municipalities," the Premier asserted.

The Victoria delegation persuaded the Union of Municipalities at its Prince Rupert convention recently to stand by its demand for a share of the provincial income tax.

FORTY YEARS IN MADAGASCAR FIELD

Society of Friends' Mission Wins Through Stormy Days to Peace

Nearly forty years spent among a primitive people in a tropical and as yet imperfectly developed country, with a consequent sacrifice of home time in the sacred cause of religion was the choice made by Mr. Sims in 1884 when he went from the Society of Friends in London, England, to spread the faith in Madagascar.

Mr. and Mrs. Sims, who have been visiting in Victoria, are now enjoying their fourth furlough since the inception of their work in Madagascar, and after spending a year in England came in June to Vancouver to renew acquaintance with their daughter and their two sons who are now resident in the Mainland city. On his arrival the country was under Malagasy government but the natives soon learned to value the help they received from the mission settlement, and when in 1888 Mr. Sims went out to fulfil his promise of marriage she also found the field ripe for her services.

Three children were born of the marriage, and it was decided that when the first furlough came due they should be taken home to England to be educated. In 1895, therefore, the party embarked for home, leaving a colleague of the Society of Friends in the Sims home to take charge of the work. For some time there had been friction between the native government and the French troops, and it was while Mr. and Mrs. Sims were in England that matters came to a head. The Malagasy queen was deposed and banished to Algeria and her government was overthrown. Great bloodshed resulted, and so much resentment was felt against the invasion of the white man that "rebel" tribes attacked the mission settlements, and the Friends' mission house was burned to the ground and its occupants brutally murdered.

Period of Trouble

If Mr. Sims' first arrival in the country had been full of hazards and of speculations, his second arrival at the end of this eventful furlough must have been of even greater significance. With their young children left behind in England, he and his wife returned to a home that held an even greater tragedy than merely temporal separation. The arduous pioneer work of ten years had to be reconstructed, and the breath of optimism, based on high spiritual hope, was needed to inspire their labors.

During this first furlough Mr. Sims had supplemented a practical knowledge of drugs by a course taken at the London Hospital in order to give fuller service to the natives who attended the mission.

Nevertheless his medical knowledge was of immense value in his work, and the healing of troubled minds and aching bodies made similarly good progress.

Meanwhile the French Government was doing its share for the advancement of the country, introducing many blessings of civilization, such as improved water supply, electric light, law courts, hospitals and a railway from Tananarivo, the capital, to the coast.

Various mission schools were in operation, as well as public schools, taught in the vernacular but with French as one of the subjects.

A large house of sun-dried brick with tiled roof was built for the Friends' mission, capable of housing a score of girl students, the charge of Mrs. Sims, and of covering Mr. Sims' medical work for the natives. A cottage hospital with twelve beds was also erected. Housekeeping was simplified by the ample supply of native labor, and Mrs. Sims testified that the Malagasy make good servants.

Bobby Jones Follows
Evans Down to Defeat

Marston, of Philadelphia, Shoots Wonderful Rounds and Eliminated U.S. Open Champion in Amateur Tournament; Jones Set Course Record of 70 In Morning; George Von Elm Made First Nine Holes In Afternoon In 33; Sweetser Still Winning

Chicago, Sept. 20.—Two former national amateur titleholders and the national open champion, Bobby Jones, of Atlanta, were eliminated yesterday in the second round of the national championship tournament. The defeat of Jones by Marston, of Philadelphia, furnished the thrilling upset of the day.

Jess Sweetser, of New York, kept in the race to defend his title by overcoming Dave Herron, of Chicago, 4 and 3, and Bob Gardner, of Chicago, ousted Bill Fownes, of Pittsburgh, 2 and 1. Francis Ouimet, of Boston, finally outgolfed Willie Hunter, of Los Angeles, formerly premier golfer of Great Britain, and won 3 and 2.

Jess Guilford, of Boston, had a comparatively easy time in defeating Dexter Cummings, of Chicago, 7 and 5; George von Elm, of Salt Lake City, defeated Jim Manion, of St. Louis, 6 and 5; Joe Wells, of East Liverpool, Ohio, ousted H. K. B. Davis, of San Francisco, 4 and 3, thus removing all the Far West contenders except von Elm. Denmore Shut, of Huntington, W.Va., eliminated Ned Allen, of Milwaukee, 6 and 5.

Quimet Had a Scare
Prospects for a time that Hunter would down Quimet as he had Evans kept the followers on edge until the Boston golfer, by shooting par on the third nine, and three better than perfect golf on the last quarter up to the finish, finally disposed of the Briton.

Jones's downfall was all the more impressive because he had not only shot a record 70 for the 5,704 yard course in the morning, breaking par by four strokes and adjourning for luncheon two up, but he kept within two strokes of par on the afternoon round, only to lose to a collection of birdies that netted Marston the advantage.

In the third nine Marston would have got four straight birdies if Bobby had not laid him a symple on the twenty-seventh to have in par four.

Some Fine Golf
The Philadelphia was not to be denied another birdie, however, after halving the next two holes in par, he got home a four on the 452-yard thirteenth, but Jones was down in the like. After halving the thirty-first par three, Jones recovered one hole at the 338-yard thirty-second by laying Marston a symple and causing him to take five. The reduction did not last, for Jones pulled his drive to a clump of trees on the 440-yard thirty-third and was barely over the brink in two, taking five to be two down and three to go. Marston was all ready to end the struggle on the thirty-fourth green, where he pitched the ball to the foot of the flag in two, but Jones dropped his ball well inside Marston's and was wise enough to play for a half in par four when Marston laid him a symple. Marston settled the argument on the thirty-fifth, where he holed a long putt for a birdie four after he had fallen short on the bluff with his second, while Jones pushed his brassie second far to the right of the green and still had a five. Marston conceded, making the result 2 and 1.

Sweetser Did Well
Sweetser had to play good golf to defeat Herron, chalking up a 72, two under par, to be two up at the eighteenth, as the Chicagoan shot a par 74 and the champion had to get out to 35 yesterday afternoon to be four up at the twenty-seventh hole. Sweetser was one better than par also on the thirty-first and a birdie on the fourth nine and Herron was only two over par on the fifteen holes played in the afternoon.

Von Elm in Fine Form
Von Elm had a very content with Manion, for, although the Missouri star showed flashes of championship golf, Von Elm, after scoring a fair 78 in the morning, burned up the course in the afternoon. He broke the record for the first nine in a 33, bagging a birdie four on the 518-yard nineteenth and eagle two on the 345-yard twenty-sixth, where he holed his approach all unnoticed, as the gallery was trailing Jones, Ouimet and Gardner.

Gardner did not have an easy time at any stage of his match with the veteran Fownes, and was able to reach the half-way point two up only by shooting a 75, and he had to score par 36 on the first nine in the afternoon to gain two more holes. Fownes was never licked until the last hole was holed. It was on the next to the last green that the national champion of 1919 gave up the ghost with a half in par, the winner of the title in 1909 and 1915.

Von Elm and Ouimet
As a result of yesterday's play, Guilford and Ouimet are playing Sweetser, Gardner meets Marston, the tests Wells and Ouimet takes on Von Elm.

On the basis of their previous play Sweetser should win, but that previous performance does not truly prognosticate coming golf results has already been shown in this tournament by the elimination of the two stars who tied for low medal honors in the qualifying rounds.

Jones and Evans are playing off their tie this afternoon instead of Sunday, so that Jones may hurry back to school at Harvard. As a result of yesterday's elimination, the remaining contestants are geographically distributed two to Boston, one to New York, one to Philadelphia, one to West Virginia, one to Ohio, one to Utah and one for Chicago, although eleven of the thirty-two qualifiers were local players.

Reds Are Making
Another Bid for
National Pennant

Won Double-Header Yesterday and Are Now Only Four Games Behind New York

New York, Sept. 20.—Cincinnati advanced a little more yesterday in the National League, winning twice from Philadelphia, one to nothing and six to five, while the Giants were idle and the Pirates lost to Boston 5-4. The Reds are now only four games in the rear of New York.

Brooklyn and Chicago divided a double-header. The Cubs lost the first 5-1, and won the second, a ten-inning game, 4-2.

Detroit and Philadelphia split a double-header, the Tigers winning the first 6-2, and losing the second 4-2.

The Red Sox made two runs in the ninth and defeated the White Sox 2-1. Washington overwhelmed St. Louis, winning 11-0.

Ontario Motorboat
Travels 1,064 Miles; All Records Broken

Windsor, Muskoka Lakes, Ont., Sept. 20.—Harry S. Greening, of Hamilton, Ont., in his twenty-six-foot motorboat Rainbow III, shattered all old records runs of any trans-Atlantic liner, and made a new world's record for twenty-four hours for any kind of boat yesterday when he covered 1,064 miles in twenty-four hours, averaging 44.33 miles an hour for the entire distance, including ten stops for gasoline.

PETER MANNING EQUALS UHLAN'S MILE RECORD

Allentown, Pa., Sept. 20.—Peter Manning, driven by Tommy Murphy, equalled the world's half-mile track record here to-day, trotting the mile in 2:02 3/4. The record was established at Goshen, N.Y., in 1911, by Uhlman.

Malone, N.Y., Sept. 20.—Nedda, driven by "Pop" Geers, is claimed to have lowered the world's record for trotting mares over a half-mile track when she trotted a mile in 2:03 1/4 at the Franklin county fair grounds here yesterday. She was paced by a runner. Nedda also holds the world's record for trotting mares on a mile oval.

FIRST PICTURES OF DEMPSEY-FIRPO FIGHT SHOW
HOW CLOSE CHAMPION CAME TO LOSING HIS CROWN

The upper picture shows Dempsey pitching headlong through the ropes onto the shoulders of Kid McPartland, one of the judges of the fight sitting at the ringside. This was in the first round of the fight after Dempsey had floored Firpo three times. The blow that sent Dempsey through the ropes was a terrific right high on the side of the jaw, which came in rapid succession after a similar blow. Had Firpo landed either of these blows on the "button" he would have been the new heavyweight champion of the world. As it was the bell ended the round a few seconds after Dempsey knocked out Firpo in the second round.

In the lower picture Dempsey is walking away as Johnny Gallagher, referee, counts ten over Luis Angel Firpo, Argentine challenger for the heavyweight title. The knockout came after fifty-seven seconds of fighting in the second round of the scheduled fifteen-round bout at the Polo Grounds, New York.

Ontario Motorboat
Travels 1,064 Miles; All Records Broken

Windsor, Muskoka Lakes, Ont., Sept. 20.—Harry S. Greening, of Hamilton, Ont., in his twenty-six-foot motorboat Rainbow III, shattered all old records runs of any trans-Atlantic liner, and made a new world's record for twenty-four hours for any kind of boat yesterday when he covered 1,064 miles in twenty-four hours, averaging 44.33 miles an hour for the entire distance, including ten stops for gasoline.

PETER MANNING EQUALS UHLAN'S MILE RECORD

Allentown, Pa., Sept. 20.—Peter Manning, driven by Tommy Murphy, equalled the world's half-mile track record here to-day, trotting the mile in 2:02 3/4. The record was established at Goshen, N.Y., in 1911, by Uhlman.

Malone, N.Y., Sept. 20.—Nedda, driven by "Pop" Geers, is claimed to have lowered the world's record for trotting mares over a half-mile track when she trotted a mile in 2:03 1/4 at the Franklin county fair grounds here yesterday. She was paced by a runner. Nedda also holds the world's record for trotting mares on a mile oval.

Former Scottish Pro Golf Champion Accepts Offer to Instruct at Colwood Links

Alex Marling, Scottish professional golf champion in 1914, will be the new golf pro at the Colwood Golf and Country Club, according to an announcement made this morning by officials of the club. He will commence his duties here on October 16.

Alex will succeed Eddie McInnes as the instructor at Colwood. McInnes only served the club for about three months, being forced to relinquish his duties owing to poor health. He came out from London, but his war injuries kept him always under medical care and he decided to return to his old home.

Marling has a very high rating not only as an instructor but as a golfer. He will undoubtedly carry Victoria colors to some big tournaments and will provide a good playing partner for Phil Taylor, the crack Oak Bay pro, when two visiting pros come here for a match.

In 1914 Marling, then pro at the Royal Aberdeen Golf Club, won the Scottish golf championship against all the veteran and well-known players in the land where the name originated. During the Great War Marling served with the Scottish forces in France and he had practically no time for golf. After his discharge from the army he came to Canada and accepted a post as professional at the Regina Golf Club. He has been there three years and has created a big name for himself in prairie golf circles.

Prairie Hockey Stars
May Perform on Coast

Lloyd Turner, Manager of Calgary Team, Will Interview Patricks to Arrange Trades; Lots of Rumors Flying About As Hockey Season Draws Close; Ottawa Hockey Club Changes Hands; Fine New Rink in Capital; Amateurs Break Away

With the arrival of the long Fall evenings and the need of a fire in the grate the folks are turning their attention to ice hockey. Several items in the papers during the past few days, telling of the signing of Clem Trihey, of Montreal, by Lester Patrick and the report that Leo Dandurand, of the Montreal Canadiens, is going out to start a hockey war against the Coast League, has whetted their appetites for more news.

What's the line-up going to be? How long's the season going to be? When's the rink going to open? These are some of the questions you hear on all hands to-day.

None of them will likely be answered for a little while. Lester Patrick will be able to tell something when he gets back from the East, but in the meantime the fans will have to be satisfied with scanty morsels.

Coming to Arrange Trades
The Times has received a number of items over the wire to-day dealing with hockey. The following from Calgary intimates that there may be some trades made between the Coast and Prairie leagues:

Contracts for Bobby Benson and Harry Oliver are being carried to Winnipeg by Lloyd Turner, Tiger hockey club manager. He will sign up the two boys for the forthcoming Western Canada League race, and at the same time he is likely to look over the prospects, if there are any worth while.

"After the Winnipeg journey, Manager Turner will take a jaunt to the Pacific seaboard to do some dickering with the Patricks for the exchange of a couple of players out there, so the Tigers are assured of plenty of experienced talent on their roster. The forward line will be exceptionally well strengthened, this seasoned material making up for the lack of experience that hurt the club last season.

"It is rumored that a couple of the local amateurs will have a chance to workout with the pros, and if they make good their names will go down on the dotted line for salaries, but in the event of their failure, their amateur status will not in any way be impaired."

Amateur Fighter Drops Dead While Boxing in Benefit

Minneapolis, Minn., Sept. 20.—Walter Gretchel, eighteen, local amateur boxer appearing at a benefit show here last night, dropped dead in the ring during the second round. Police arrested his opponent, Conrad Becklund, twenty; Arnold Sandberg, the referee and Win Hastings, the promoter.

Conflicting reports of the accident were given to police by the witnesses. Some said that Gretchel stumbled to the floor without being hit. Others insisted that Becklund had struck a blow which dazed the boy, and that he fell after staggering around the ring for a moment.

A deputy coroner said that "death might have been caused by a broken neck or heart disease. There was a slight abrasion on the left cheek-bone, but no other signs of injury. A post-mortem examination is being conducted by the coroner to-day."

UMPIRES ARE RAZED BY SACRAMENTO FANS

Decisions Which Enabled San Francisco to Win Are Resented Hotly

Sacramento, Sept. 20.—In the fourth inning of yesterday's game between Sacramento and San Francisco, which are fighting hard for the Coast League pennant, Ernie Mulligan, leading off Hughes to right center, Brown raced after the ball and leaped into the air, crashing into the boards as he speared it with one hand. Umpire Byron, officiating at the plate, called Mulligan safe, ruling that the ball had bounced off the fence, and immediately after the arbiter was surrounded by angry Sacramento players, and some of the fans started to climb out of the stands.

Colonel Pick finally quieted his players, and the police stopped the incursion of fans. Before the solons could gain equilibrium, Hendry scored Mulligan with a single, and Kilduff tripled, counting Hendry, San Francisco finally taking the combat for a second straight triumph, score 4-2.

Chased Umpire
After the game fans charged out of the stands after Byron, who fled to the seclusion of his dressing-room, remaining there until the angry mob had disappeared. When he left the park, stones were hurled at him by the mob, some of the assailants being women, but Byron was escorted by police to his hotel.

Umpire Ward was struck by a rock and his cheek cut. Catcher Yelle, of San Francisco, also was cut on the cheek by a rock when he attempted to protect Ward.

San Francisco, Sept. 20.—A riot in the Sacramento baseball grounds during yesterday's game brought an ultimatum last night from President W. H. McCarthy, of the Pacific Coast League, to the Sacramento chief of police that Coast teams will play no more baseball in Sacramento this season unless proper police protection for the umpires and players is assured.

Sacramento police were accused by McCarthy of standing by and making no attempt to check "ten or fifteen hoodlums" who started the trouble.

SCOTTISH FOOTBALL TEAM MAY MAKE TOUR OF CANADA NEXT YEAR

Hamilton, Ont., Sept. 20.—There is more than outside chance that the famous Airdrieonians of the Scottish Soccer League will tour Canada next year. John Walsh, a former official of the club, who recently came to Hamilton to reside, states that both the players and officials of the team desire to visit Canada, and asked Mr. Walsh to use his influence in this direction.

New Hockey League
Port Arthur, Ont., Sept. 20.—A new four-club hockey circuit came into being yesterday, when Selkirk, the Falcons, of Winnipeg, Port Arthur and Port William clubs agreed to play together during next and subsequent seasons. The new organization will seek affiliation with the Canadian Amateur Hockey Association, and even if not successful at the commencement of the season, will carry on in accordance with all the playing and residence rules of the big association in the expectation that it will be given the right to enter the Allan Cup play-downs.

An annual meeting will be held shortly for the election of officers, and drawing up of a schedule providing for ten or twelve home games for each club.

MEDICAL MEN TO HOLD CONVENTION IN VICTORIA SOON

Physicians From Washington and British Columbia Arrive Here September 28

What is expected to be the largest sectional meeting of the American College of Surgeons ever held on the continent, comprising the British Columbia and Washington practitioners, will take place here September 28-29, it was announced this morning through the publicity agents of the convention here. Some of the leading medical men of the continent will be in attendance at this convention, including the world-famous Dr. Charles Mayo, of Rochester, whose lightning-like operations have won him ubiquitous recognition; Dr. James T. Case, of Battle Creek, Michigan, a prominent radiologist and educationalist; Dr. H. C. Burgess, professor at McGill University, and others. Dr. George Hall, of this city, stated to The Times this morning that although the coming of Dr. Mayo was not yet definite, it was expected that he would be in this city on the first day of the convention.

Over 1,800 personal invitations have been sent to medical men of British Columbia and Washington, and it is hoped that 400 or 500 of these will attend the convention. The headquarters of the medical men will be at the Empress Hotel, and the activities planned for them are outlined in a programme obtainable from Doctors George Hall and Graham.

The committee on local arrangements is composed of the following: Dr. Hermann M. Robertson, Victoria, chairman; Dr. Douglas W. Graham, secretary; Doctors W. H. K. Anderson, W. T. Barrett, Roderick L. Fraser, George Hall, E. C. Hart, F. Leeder, H. E. Ridewood, W. H. Sutherland, J. N. Taylor and F. M. Bryant.

The British Columbia executive committee is made up of the following: Doctors W. B. Burnett, A. B. Schinbelen and J. J. Manson, all of Vancouver. The Washington executive committee is: Doctors G. H. Horton, John Hunt and H. G. Whitacre, the last named of Tacoma, and the others of Seattle.

The programme of the convention includes hospital sessions, an annual meeting of the Fellows of the College, a public community health meeting, and a scientific session. During this period, and at the different meetings, members of the section of the college will address the gathering, and surgeons of note from other parts of the continent will come before the members of the body.

At the public meeting the topics for discussion will be modern public health ideas, the cancer problem, the development and use of the X-ray in medicine, the value of scientific medicine to the world, approved hospitals and better care of the patients, the medical profession and our hospitals and people. These topics will be discussed by the members of the section of the college, which covers British Columbia and Washington. An address of welcome will be delivered by His Honor the Lieutenant-Governor.

SAANICH HEALTH CENTRE W.A. HEARS FINE REPORTS

The Women's Auxiliary to the Saanich Health Centre held their monthly meeting in the lecture room of the centre on Tuesday afternoon. Mrs. Winkle presided. It was reported that many tourists from the United States had visited the centre and thought that great praise was due to all those connected with the work. It was decided to have a sign painted to be erected at the entrance so that passersby might know what the building was.

Mrs. Kirkham kindly offered to have a silver tea at her home on Tuesday, October 23, when those interested could help out with the work at the centre.

Mrs. Lucas, in a very efficient manner, gave a clear account of the work that has been done and the progress during the past month.

After the serving of afternoon tea the meeting adjourned.

MANY AID REFUGEES AT WILLIAM HEAD

Perhaps not many persons are aware that the donations which are being handed in to the local branch of the Canadian Red Cross are being directly utilized for the benefit of the sufferers who have arrived here already from the stricken areas, and who are expected to arrive from time to time.

The Empress of Australia and the Empress of Asia will reach Victoria shortly, and there may be many others who will need immediate assistance. The Red Cross is making every effort to meet the demand which may be made. So far the women and children who are at the Quarantine Station have been comfortably outfitted. The men also have been given what they needed. Not one among them has hitherto been in any but the most comfortable circumstances, and this change from plenty to poverty is bewildering. There is no doubt that it will not be long before they are all re-established but in the meantime they must be helped. The Red Cross rooms present a busy appearance at present. Every day the boat from the quarantine brings over a little batch of refugees to have their wants attended to. In addition there are many visitors who come with offers of help, and some who are bringing friends or relatives in Japan desire to know if they can secure any word of them.

APPOINTED JUDGE AT MANCHESTER

Ottawa, Sept. 20.—Captain L. F. Burrows, assistant to the fruit commissioner, has been appointed as the Canadian judge at the Imperial Fruit Show to be held in Manchester, October 26. He will be associated with an English judge and a third man will be judging apples in the British Empire section. Captain Burrows will sail for England on October 5.

QUILL PENS PASS
London, Sept. 20 (Associated Press).—Quill pens have been abolished in South-west County Court. This breaks a tradition of 150 years, and deprives barristers of an implement of many uses. Quill pens in skilled hands have been known to be useful for other things than writing. They were used to drive home arguments. They were used to distract attention from some specially obvious flaw in reasoning. Stubborn and timid witnesses often were impressed by a quill pen in time with the legal twitch of the eye-brow. The last quill pens have been removed from the court and cheaper steel pens substituted.

NOBODY'S LOVER

By RUBY M. AYRES

Poor woman! Unknown to Ursula, she had taken her few little bits of jewellery to a shop and offered them for sale in the vain hope that they might raise something substantial towards the sum her niece required, but she had come back—with the poor little trinkets hidden in her muff, and the smile in the eyes of the jeweller stamped on her memory for all time. Worthless, he had called them—the only presents her husband had ever given her.

"Far better give it up and go into a bank," she counselled Ursula that night. "When you are as old as I am, you'll know how useless it is to waste your time crying for the moon." And Ursula had appeared to agree.

So she was amazed at the change in the girl's face when she came in from her second interview with Mr. Simpson.

"Have you had a fortune left you?" she asked again dryly, as Ursula did not answer her first question.

Ursula kissed her vehemently. "Can you keep a secret, Aunt Milly?" she asked.

Mrs. March smiled. "Can I keep a secret?" she echoed. "Well, I think I might be able to."

She did not think it worth while to explain that all her life she had been struggling to keep the secret of petty discomforts and household worries from the man she had married, because she feared his anger. Ursula could have nothing to tell her that

would worry her more than the constant wear and tear of domestic monotony.

Ursula clung to her secret for a moment longer; then let it go: "Aunt Milly! Some one has given me a thousand pounds to have my voice trained."

Mrs. March started. For a moment she thought Ursula had taken leave of her senses. The girl laughed.

"It's quite true. I know it sounds like a dream, but it's quite true; and now I shan't have to take that horrid berth Uncle found for me. I can spend all my life singing—singing."

"Mrs. March moistened her pale lips. "Whom did you say had given you a thousand pounds?" she asked with deadly composure.

Ursula checked her excitement to explain. She told the story of the advertisement—how she had inserted it as a last despairing hope; of the answer that had come, and the appointment that had been made and not kept; of the second letter and its magnificent results.

"It's a fairy story—only a real one," she said. "And I'm so happy that I don't know what to do."

"The man," said Mrs. March faintly, "whoever he is, must be mad."

"He's a dear," Ursula answered warmly. "I only wish I could see him and thank him, but he won't let me. Never mind; perhaps some day he'll change his mind, and then I shall tell him that he's been the best friend I've ever had."

"Is he young?" Mrs. March inquired disapprovingly.

Ursula laughed. "I don't know. I don't know anything about him."

"What do you imagine your uncle will say?" Mrs. March asked.

"I don't see what business it is of his," Ursula said.

"He makes most things his business," Mrs. March answered. She looked at the girl's eager face. "A thousand pounds will not do all that you imagine it will," she said. "I have my mother's money," the girl answered. "It's not very much, but it will keep me if I am careful."

"At the price things are now?" the elder woman said.

Her outlook on life had lost what little romance and interest it had ever possessed. She went on living with Henry March because it never occurred to her that she could leave him. He had withered her mind with his incessant bullying and indifference, and made her a mere machine, a man's servant, and she had no house clean, and struggled to knock odd shillings off the weekly cost of living so that he might have the more to spend on his own selfishness.

(To Be Continued)

Men's English Boots

At \$6.50 a Pair

Vancouver Island News

COWICHAN LAKE

Cowichan Lake, Sept. 19.—The opening of the hunting season has brought many visitors to the lake, but while deer are reported very plentiful, the extreme dryness of the woods makes hunting difficult.

Timber on Fire

A bad fire is raging at Cottonwood Creek, and some anxiety is felt as to the safety of the James Logging Company's sawmills. The fire has spread over the top of the mountains and towards Camp Two. Two men have been slightly injured through the falling of telephone poles and wires.

Col. C. Donnelly, road superintendent, was up this week, looking into the question of the approach to the public boat landing, which it is understood is to be built shortly.

Miss Hall, district health nurse, reports the general state of health of the pupils as good.

The Channel Logging Company at Mile 69 on the C.N.R. have closed down, temporarily.

Personal

F. Scholey visited Victoria last week.

Miss M. Lockwood has returned to the settlement.

Mr. R. Douglas has been visiting his sister in Vancouver.

Mrs. Frank Green is spending a week in Victoria with her son, who is at high school there.

Mrs. H. T. Hardinge and Mrs. F. Reid are collecting for the Japanese relief fund.

SIDNEY

Special to The Times

Sidney, Sept. 19.—The W.A. branch of Holy Trinity, Patricia Bay, held their first meeting on Monday afternoon at the home of Mrs. Gwynne.

Members of the senior branch of St. Andrew's, Sidney, were also present, having been invited to attend. The president was in the chair. The secretary-treasurer, Mrs. Salmon, read the minutes, which were adopted.

The question was discussed as to whether the Sidney branch should adopt a boy or girl in the missions. It was finally decided that Patricia Bay branch should adopt a boy, as they already had several donations. Other business was discussed. The meeting was held in the garden, where tea was served.

Mrs. J. White and Mrs. McKenzie went to Vancouver via the Anacortes ferry for the week-end.

Mr. and Mrs. S. Halseth have gone East for a month. They went to Seattle and are then going to Winnipeg.

Mrs. Stevenson, of Roberts Bay, returned home on Monday night after an enjoyable ten days spent in Seattle and Vancouver.

JAMES ISLAND

Special to The Times

James Island, Sept. 19.—Some very interesting games were seen on the local courts last Saturday and Sunday when the boys' singles tennis tournament for the Thomas trophy was played.

The games were very closely contested. Bond and Dixon having to play three sets before a decision was reached.

Gordon Bowker was the winner, James Bond being the runner-up.

Mr. and Mrs. R. H. Lyons, Mr. and Mrs. N. Moore, Mr. and Mrs. A. J. Dakin, and Mr. and Mrs. J. Van Norman, were guests at the Scott-Henderson wedding, last Wednesday.

Mr. and Mrs. W. H. Thomas and Miss Thomas have been spending a few days at Jordan River as the guests of Mrs. E. Holmwood.

SAYWARD

Sayward, V.I., Sept. 14.—The residents of this district had the great pleasure of attending the first wedding to be celebrated in this district, which took place in the lower schoolhouse on Tuesday evening, Sept. 11, when Miss Annie Lewis, only daughter of Mr. and Mrs. Lewis, of Sayward, became the bride of Stanley Smith, of Quilchuan. The schoolhouse was attractively decorated, and the ceremony was performed by the Rev. Allan Greene, of the Columbia Coast Mission. The bride, who was given in marriage by her father, made a charming picture in her beautiful wedding dress of white silk with bridal

veil to match. She carried a bouquet of white roses. The bride was attended by three bridesmaids, the Misses Ruth, Anna and Evelyn Kelsey. Arnold Lewis, brother of the bride, acted as best man. After the ceremony a reception was held, concluding with a dance at which refreshments were served.

Mr. and Mrs. George James, of Vancouver, are visiting in the valley as guests of Mrs. James's parents, Mr. and Mrs. J. E. Armishaw.

The Provincial Department of Public Works is completing the new bridge across the White River. One span of this bridge was constructed in 1921. Dan Sutherland is in charge of the work. Mrs. Hibbert Matherson, of Port Kells, is visiting in the valley as guest of her sister, Mrs. J. E. Armishaw.

The motion picture machine purchased by the Sayward Progressive Agricultural Development Society has arrived, and the residents are looking forward with interest to the first movie show which is to be held on Saturday evening, September 23. The Society has placed the machine in charge of a committee composed of H. A. Armishaw, Charles Collett, Jr., and Charles Sacht.

The Sayward Progressive Agricultural Development Society held a special meeting at the home of the president, C. Collett, on September 6, to receive the report of the delegation from the society and the Women's Institute on their visit to Vancouver and Victoria in connection with the coming agricultural fair, and other questions pertaining to the development of the district.

The delegation was composed of Mrs. A. Brown, secretary, and Mrs. J. Wallis, president of the Women's Institute, and J. E. Armishaw, who reported to the meeting that the delegation had met with good success. The business firms of Vancouver and Victoria had made generous donations in prizes for the fair. Mr. Armishaw also reported that the delegation had a very successful interview with the Hon. J. Oliver regarding the construction of the promised six miles of new road. At the close of the interview the Premier stated that this work would be undertaken at once. The building of this piece of road will be a great help to a number of settlers who are at the present time without a road. There was a good attendance of members present. Refreshments were served at the close of the meeting by Mrs. C. Collett.

A party of tourists recently walked through from Campbell River to Sayward, and expressed themselves as being delighted with the resources of this district from an agricultural and tourist's point of view. They also reported that every day saw a number of tourists arriving at Forbes Landing inquiring as to how to get to Sayward.

FOR THE CHILDREN

The Sandman Story For To-night

MR. BEAR AND MR. FOX TAKE A TUMBLE

It really did look from where they stood on the ground as if there might be honey inside the old tree.

Mr. Fox, sauntering along, came upon Mr. Bear looking up at the hole in the big tree trunk and stopped to see what he was looking at.

"Think there is honey in there, Mr. Bear?" he asked, pricking up his ears and looking very much interested.

"Why don't you climb up and see?"

"I hardly dare take that risk, the tree is so old," said Mr. Bear, with

his eyes still fixed on the hole. "I'm pretty 'hefty,' you see, and my weight might prove to be too much, and then I might get a bad tumble, for, as you see, we are on the side of a rocky hill."

"Wish I could climb that high," said Mr. Fox, his eyes growing more anxious as he looked at the tree and thought of the honey that might be inside.

"Now if Rascy Coon were about he could scout up there and tell us in a jiffy, or even Billy Possum. But they are not here—never around when you

can use them; that's the way with friends, Mr. Bear. Don't you find it so?"

Mr. Bear did not reply; he was too busy figuring out how he could find out about the honey without climbing the tree himself.

"I wonder, Mr. Fox," he said, "if you were to get on my back while I am standing on the ground on all fours, if I could not then raise myself carefully and lean against the tree? That would enable you to see

in the hole by standing on my shoulders."

"That is so," said Mr. Fox, quick to see that he would have the advantage, because if there happened to be honey there he would be Johnny-on-the-Spot, so to speak, and could help himself first to all he wanted before he gave any to Mr. Bear.

"We will try it, Mr. Bear," he said, leaping to Mr. Bear's back and grabbing him by the thick fur. "Steady, now, steady, Mr. Bear," he said, as Mr. Bear slowly raised himself on his

hind legs. "Keep your mind on what you are doing and don't think about that honey until we get it."

On the limb of a tree that stood next to the old one sat Tim and Trickey Squirrel. They heard all that had been said and now saw what was going to happen, for there was no honey in the old tree, they knew. And they also knew what was in there.

Frisky flitted his tail and ran along the limb to keep from falling

off, he was so full of laughter, while Trickey put both paws over his mouth so as not to chatter what he knew was sure to happen.

Up rose Mr. Bear and leaned his front paws against the tree trunk, and then Mr. Fox carefully stood up and with a paw on each side of the hole he poked in his head. But he pulled it out much quicker than he put it in, for something came against his nose, and at the same instant he pulled out his head a big-

eyed face appeared at the opening and a gruff voice screamed "SCOOT!" or maybe it was "HOOT!" Anyway, it sounded like a scot to Mr. Bear and Mr. Fox.

Mr. Fox lost his balance. Mr. Bear started to run, but his clumsy feet slipped and down the hill he rolled and Mr. Fox with him, the rocks and stones making their downward way anything but soft and smooth.

"Ha, ha, ha!" laughed Frisky Squirrel, flitting his tail up and

down his back. "He, he, he!" laughed Tim. "I guess you won't try poking your nose into other folks' homes again."

Mr. Bear sat up and rubbed his head when he reached the bottom of the hill.

"You are lucky. You know where to rub," said Mr. Fox, rubbing first his head, then his back and then his legs. "I feel sore all over."

"Guess I'll go home," said Mr. Bear.

On the Sedan

On the Coupe

NOW

On or about January First, Nineteen Hundred and Twenty-Four we will be in production on a new four-door Sedan and a new Coupe identical with those now being produced in the United States. The prices on these new models will be: Four-Door Sedan \$985.00, Coupe \$755.00.

Ford dealers have on hand a limited number of the present Coupes and Two-Door Sedans which can be obtained at the following prices: Two-Door Sedan \$685.00, Coupe \$595.00.

This frank statement of merchandising and production policies is made to settle all the rumors that have been circulated regarding Ford Cars and prices in Canada. The saving in price on present models gives you the opportunity of driving your Ford closed car this Winter.

PRICES OF NEW MODELS

Four-Door Sedan, - \$985.00
Coupe, - \$755.00

PRICES OF PRESENT MODELS

Two-Door Sedan, - \$685.00
Coupe, - \$595.00

All prices quoted above are f.o.b. Ford, Ontario and do not include Government Taxes.

With Winter close at hand this differential in price should be all the more attractive. You can obtain the advantages of closed car comfort and distinction by availing yourself now of these prices.

A Disappearing Kitchen Table

The extra kitchen table is a good deal like the extra chair in the small living room—when it is needed it is needed badly, and when not in use it is abominably in the way! In the ideal kitchen, which is the one requiring the fewest steps, there simply isn't room for the emergency table. Yet there are times when we stand helplessly in the middle of our snug kitchenette, with our hands full, wondering where in the world we are going to put down the soiled salad plates, the tray of glasses to be filled with fruit cocktail, or the after-dinner coffee cups. Oh, for another table to hold this temporary burden!

For such congested moments, let me commend to you the collapsible table, which claps back against the wall when not wanted and comes forward at a touch to serve as an extra table on which to mix up biscuits, arrange the dessert glasses, or hold the debris from the early courses of the dinner table.

While this disappearing table can, of course, be fastened to the wall in any available space, it is especially unnoticeable if it fills the vacancy below a cupboard or beneath the cook-book shelf. Hinged to a cleat in the wall, or even to the bottom of the cabinet or to the shelf, it may be drawn forward and upward; its hinged support falls into place on the floor, and there you are! A wooden button should be screwed on underneath, to hold the wooden support in firm position.

This little vanishing table may easily be used by two persons as a breakfast table on occasion. In fact, if you can imagine a cozier spot on an Autumn morning than this little nook near the window, you will do better than I can!

THE RED CROSS WORKSHOP
584-5 Johnson St. (Just Below Government) Phone 2169

At an hotel in a popular holiday resort, ministers are allowed special rates during certain periods of the year.
One minister was somewhat surprised on arriving at the hotel not to

see any brother clerics, and asked a maid if there were any in residence.
"Yes, sir," she replied, "there are several ministers here, but they don't wear clerical clothes; they just look like gentlemen."

CITY WILL CALL FOR COMPTROLLER

Post to be That of Managing
Comptroller, Council
Decides

City Manager adherents in the City Council carried their way at the postponed meeting of that body yesterday afternoon when a motion to advertise for a City Managing-Comptroller carried. Aldermen Andrews, Sargent and Sangster asked to be recorded in the negative, Alderman Woodward was absent when the vote was taken.

Alderman Gillespie opened the proceedings shortly after the council met by suggesting the suspension of the regular order of business to take up the point of a city manager.

Alderman Andrews voted against such suspension.
Later Alderman Ker returned to the attack by moving that applications be sought for the post, as follows: "Resolved, that applications be called for the position of City Comptroller and that the mayor and chairman of the finance committee be authorized to carry out advertising necessary, and that applications be received up to noon on October 5."

By-law Defines Duties
"We should make it read 'Managing-Comptroller,'" stated Alderman Leeming.

"We can show in the advertisements what are the requirements of the position," urged Alderman Ker. "Applicants can examine the by-law defining the duties of a comptroller," agreed Alderman Todd.

"My views are well known," stated Alderman Andrews. "We must have come to the conclusion that none of the present employees of the city are capable of filling the position. We ought to weigh this matter very carefully before we come to a decision to pass over men long in the city's service."

"There is no suggestion that the city's employees are unfit," Alderman Leeming stated. "The reason why we have to go outside is that the city officials are all needed in their own positions. We have no understudy for our City Treasurer—both are needed."

Alderman Harvey said he was of the opinion that city employees "should be given a chance as they have pre-knowledge of the city's work." It was a business code of ethics, suggested Alderman Harvey, which he had known followed. Alderman Andrews, "We must have a matchless organization, the Metropolitan Police Force of London, to promote from within the ranks of the organization."

Alderman Dewar said he believed that advertising the post as vacant would not shut out city employees

from applying, if they could fill the bill.
The motion then carried with Aldermen Andrews, Harvey and Sangster in dissent.

Salary Left Open
A further motion proposed by Alderman Ker that the maximum salary that the city would offer for the position would be \$400 monthly failed on a close vote after some discussion. It would be unwise to fix any salary, stated aldermen, as a good man might want more than \$400 and be worth it, while a poor man would not be worth as much but would expect it. A man could well start at \$250 and work up if he proved to be worth more, decided the council. The motion to fix the maximum salary lost.

After the meeting, Mayor Hayward and Alderman Leeming, chairman of the finance committee, met and decided upon the wording of the advertisement and the mediums in which it would appear.

The advertisement will be as follows: "Applications for the position of city comptroller are invited, stating qualifications and experience, also salary required, to be in the hands of the city clerk on or before noon of Monday, October 8, 1923. The duties of the city comptroller will require managerial experience in addition to accounting qualifications, and are set out in a by-law, copies of which may be had on application."

"The time is overdue when we should appoint a managing comptroller," stated Mayor Hayward to The Times yesterday morning, after Alderman Leeming had been closeted with him for a long conference. "The aldermen are all in the city now, and the action was only deferred before because some were away—time is past due when the appointment should be made," concluded the Mayor. A few hours later the council took the necessary action opening up the way for an appointment.

The terms of the advertisement, it is explained, will not prevent city employees from tendering their applications for the post. A section of the council held out no hope for civic officials, however, stating that the city had no understudies for its work, and the new post required a new man to fill it. On the other hand, a section of the council were in favor of promotion from within the city's own ranks.

CANADA'S FIRST WOMAN M.P. IS VISITOR HERE

(Continued from page 4.)

Miss McPhail's home is within a few miles of Premier Oliver's boyhood home. Perhaps this proximity accounts for her interest in the similarity in certain matters of viewpoint between British Columbia's premier and the lady member for South-east Grey.

Be that as it may, Miss McPhail has a profound admiration for the rural woman and the rural woman's knowledge of the world. "I have discovered both in Ottawa and in other cities that the average city woman is far more ignorant of economic and other problems than the average countrywoman. Possibly the reason lies in the multiplicity of attractions available to the city woman, leaving her little leisure for reading. But time and again I have been at public functions when city-bred women have displayed an astonishing interest on those questions which every woman voter should have a knowledge of," observed Miss McPhail.

"My mother was a farm-bred woman of only ordinary education, but she kept in touch with current events in a thorough manner and imparted her information to her children. It is to her teaching that I attribute that interest in economic problems which led to my ultimate entry into the political field," she continued.

This trip to the Coast is Miss McPhail's first visit beyond the Middle West, and she is charmed with what she has seen of it. Her stay is a very short one, for she is returning to the East on Friday, after visiting a former school friend in the city.

TRANSFERS TO VICTORIA

J. N. Anderson, who has been with the staff of the Vancouver City engineering department since 1911, has accepted a position here with the firm of W. N. O'Neill Co. Ltd.

Mr. Anderson served overseas as a lieutenant in engineers from 1916 to 1919, resuming his duties at the city hall on his return to the city after the armistice.

He has placed his resignation in the hands of F. L. Fellows, city engineer, and will take up his residence in Victoria October 1. During his stay in the city he became closely identified with the work of the Engineering Institute.

PIMPLES ON HEAD AND NECK

Small and Formed Sore
Eruptions. Skin Sore and
Red. Cuticura Heals.

"Pimples broke out on the back of my head and neck. At first the pimples were small and then ran into each other and formed sore eruptions about the size of a ten cent piece. The skin was sore and red and itched a great deal, causing me to scratch."

"I had the trouble about six months before I began using Cuticura Soap and Ointment, and after using three cakes of Soap and three boxes of Ointment I was healed." (Signed) J. A. Macdonald, Gifford, Quebec.

Rely on Cuticura Soap, Ointment and Talcum to cure your skin.
Bottle with Price by Mail. Address: "Cuticura," Dept. 554 St. Paul St., W. Montreal. Sold everywhere. See St. Paul St. and 1000-1000 Cuticura Soap shares without cost.

SLAVIN URGES JACK DEMPSEY TO RETIRE UNBEATEN

"Old War Horse" Sends Advice With Congratulations to Champion

Frank P. Slavin of this city, under the title of "The Old War Horse," ex-Champion Prize Fighter of the World, to-day sent a message of congratulations to Jack Dempsey for retaining the championship of the world at last week's battle with Luis Firpo, the "wild bull" of the Pampas, in New York City.

"Jack you must excuse me taking liberties," says Mr. Slavin. "I want to give you a little advice. It is from an old-headed sport. You have verified your claim to the distinction of being the best man in the world to-day. There are other lines of business that you can invest your time and savings from your contests in and make them keep you without fighting. Take my advice, retire and let us have a never-beaten champion, who never said 'quits.' It is only a matter of time you stay at the game. Firpo or someone else will be heard of again; keep that in mind."

"I had the pleasure of putting 'paid' to big Joe McLaughlin's boxing bill in the same way as you did to Firpo's when it was done in less than 4 1/2 minutes at the Ormond Club, London, on October 17, 1919. McLaughlin weighed 221 pounds, my usual weight was 182 pounds. Last week's fight was a repetition of the London bout. I never got a scratch. I broke five of my opponent's ribs, three on the left side and two on the right."

"I, a one-time champion, who pioneered and gave my might and courage towards bringing boxing to the popular stage it is at to-day, and interested the wealthy and respectable class of citizens to view it as it is now, a pastime of the most courageous, send a line of congratulation to gladden you."

"I saw the old brutal L.P.R. rules die the death they deserved on the fields with spiked shoes and bare feet in Bruges, Belgium, on December 23, 1915, at 7:30 in the afternoon before you saw the light of day. Then the honor of winning was practically all that was at stake, and what you could sell your colors for if you won. Some of my colors meted me \$250 each, a great deal of money for a contestant's silk handkerchief."

"I had to contend with the rough element that frequently were brought to break up the ring if their man was getting licked, as was done on this occasion, the last of the brutal ways of deciding who was champion at the many art of self-defense."

"I often see by the papers that John L. and Jackie Kilrain are given the distinction of fighting the last bout with the 'raw ones.' It is not true, as Jim Smith and myself fought the last on December 23, 1919, at Bruges. I have the distinction and I am the only man alive who was carried through the London Stock Exchange on the backs of the members on December 27, 1919. All these facts are on record and can be verified. Tom Sayers and the late King Edward, as Prince of Wales, in the seventies after his tour of the colonies, were carried through besides myself."

SAANICH TO PUSH SCHEME FOR EARLY SCHOOL CLOSING

Delegates to Seek Aid to Farmers; Responsibility to Tax-payers Discussed

When instructing Trustees G. McWilliam and J. Cheetham, delegates from Saanich to the School Trustees Convention at Duncan, October 16 to 19, to urge support of the plan to advance school closing for summer holidays to June 15, in place of June 30, the Saanich School Board last night decided to forward a copy of their resolution to the Victoria Board, and request support for the proposal.

The Saanich resolution has been drafted with intent to provide small fruit growers with additional help in berry picking season. It is considered that, in addition to the children attending the rural schools, the fields would receive much valuable help from the cities, where older children in graded schools and high school pupils would become the opportunity to earn good pay by aiding rush season harvesting operations suited to young people. The suggested change, if adopted as proposed, would not shorten the school year, as the earlier closing would be balanced by re-opening in mid-August instead of in the first week of September. Some discussion also took place upon the proposal of the Union of B. C. Municipalities, to place school expenditures directly under the control of the municipal councils.

Trustee Cheetham approved of this suggestion, as fixing responsibility for expenditures upon the tax-paying authority. Chairman Holloway considered the present system carried "plenty of responsibility already," and was inclined to favor a system of electing trustees by wards. This proposal was dubbed by Trustee Cheetham as "a means of electing a man who could get support in his own district, but not in a municipality as a whole."

Trustee McWilliam opined that the better policy would be to "leave well alone." The board then decided to allow the delegates a free hand on this point.

THEY TELL THEIR NEIGHBORS

Women Tell Each Other How They Were Helped by Lydia E. Pinkham's Vegetable Compound

Woodbridge, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles. I would have headaches, backaches, pains between my shoulders and under my shoulder-blades and dragging down feelings on each side. I was sometimes unable to do my work and felt very badly. My mother-in-law told me about the Vegetable Compound and I got some right away. It has done me more good than any other medicine I ever took and I recommend it to my neighbors. You are welcome to use this letter as a testimonial if you think it will help some poor sufferer."—Mrs. EDNA SIMMONS, R. R. 2, Woodbridge, Ont.

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to other women. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are drawn from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

BOND EXCHANGE TO SAVE MONEY

Trade of Two Issues Will Net Profit of \$33,000 For Victoria

That the city would save a total of \$33,000 in a bond exchange involving two issues now held by the city, was reported to the City Council yesterday afternoon by the Finance Committee. The Council endorsed the recommendation of the committee by which \$100,000 B. C. six per cent. maturing 1941 will be traded with A. E. Ames Company for \$100,000 Alberta Provincial bonds guaranteeing irrigation works maturing 1951. This will net a profit of \$20,000 for the city, it was asserted. The sum of £13,573 (\$7,515) in Provincial Government 4 1/2 per cent. P.G.E. guarantee bonds will be traded with the firm of Gillespie, Hart & Todd for \$65,000 Alberta bonds guaranteeing the A. and G. W. R. maturing 1959. By this deal the city will net a profit of \$13,027, it was stated. The report as a whole was adopted.

Following recommendations of the Market Committee and the building inspector, James Barf, the council agreed to award painting tenders to Messrs. Williams & Harte, for three elevations of the City Hall and the roof of the Market Building, and to Sparks Bros. for painting two rooms in the Friendly Help quarters. These tenders were the lowest of three received. The sum of \$455 will cover all three contracts.

Shingle Mill Site
The council ratified a recommendation made by the special committee appointed to confer with the Canadian Puget Sound Lumber & Timber Company by reason of which the city withdraws all opposition to that company's obtaining foreshore rights to property at Rock Bay under adequate safeguards to the city. The land, if permission should be obtained from the Government, will be used when reclaimed as a shingle mill site. The council agreed to be favorably disposed to the project, but refused to bind itself to the project.

A report from City Solicitor H. S. Pringle stated that it had been suggested that the city seek renewed powers of licensing. Maximum licenses for newspapers and railways, he stated, were now \$120. Did the council wish to change this, he asked. It had been suggested also that the city wipe out the monthly penalty clause in tax payments next year, and if that be done a general penalty should be substituted, warned the solicitor. This and other points in connection with the city's private bill will be laid before the Legislative Committee of the Council for immediate report.

Letter Boxes
The council declined to take action at the suggestion of Postmaster Bishop, who urged that building permits in future should call for the installation of letter drops or boxes at front doors. This was a matter for the individual, and for his own benefit, not for legislation, ruled the council. A motion to accede to the request lost.

A protest from the Sidney Board of Trade against any change in the weekly half holiday plan was ordered received and filed. A tag day asked by the Public Health Nursing Service was referred to the Finance Committee.
A request from Saanich for the city's permission to tear up ties on the old V. & S. right-of-way and the use of a portion of that road as a thoroughfare was ordered referred to the city solicitor, the engineer and the Elk Lake Committee for report.
The Police Commission's recommendation that Shafer & Creighton make twelve police overcoats at \$39.50 each was adopted.

UNEMPLOYED IN BRITAIN

London, Sept. 20 (Canadian Press cable)—A total of 1,122,000 unemployed were registered in Great Britain last week, this being 12,000 fewer than were registered the previous week.
The maximum of unemployed persons in the United Kingdom was reached on June 24, 1921, when there were 2,045,000 registered.
